NEWS AND NOTES.

Frosts have nearly destroyed the tobacco crop of Kentucky.

Another fearfully devastating storm has visited the gulf states.

About all prominent republicans in the present house will answer to roll call in the fiftieth congress.

The rain is here, promptly on time. Hear its "patter, patter, patter;" no more dust in the roads this fall.

The Henry George boom in New York has demoralized the democrats and opened the way for the election of a republican mayor.

Baker city charges theaters and shows a license of \$11 to \$16 per night for entertainments given in that city. Another case of making hay while the sun shines.

The spiritualists of Oregon, believing that the time has arrived for a closer bond of union, have called a state convention to meet at Salem October 30th. Arrangements will be made with the various transportation companies for reduced rates of fare to persons attending the convention.

CORRESPONDENCE.

YAQUINA CITY.

Work on the warehouse is now in full blast. The pile drivers went to work last Friday driving piles, and a gang of men are following up sawing off and capping.

The steamer Yaquina city sailed for San Francisco at 10 o'clock, a. m. well loaded with freight and passengers after a longer stay than usual here. She had been undergoing some repairs.

The weather is fine and all the little boats are busy plowing the waters before a gentle breeze. E. W. F.

Judge Wallace of the United States circuit court, has decided in the New York cases that national bank shares are subject to taxation. This decision is upon application from a permanent injunction restraining the collection of taxes assessed.

There remain in round numbers \$90,000,000 of the three per cent. bonds to be called. The next series of bonds which will be subject to call are the four and a half per cent., which do not mature until September, 1891, five years hence. There are \$250,000,000 of these. Then follows a gap of sixteen years before any other bonds are redeemable, with the exception of the Pacific railroad bonds, which the companies may or may not be made to provide for. The four per cents., of which there are \$737,742,850, mature in July, 1907. It can be seen that until that time the bonds, unless they are purchased at a high premium in the market, cannot be relied upon as they have been in the past for the purpose of absorbing surplus revenue. There must be a reduction of revenue or a course of extraordinary expenditure adopted to meet the situation, and it is not difficult to decide which the people will prefer.

Swiss and limberger cheese at the Bakery.

Show the Weekly Reporter to your neighbor and ask him to become a subscriber. Two copies, to separate addresses if desired, one year \$3.00.

Gold miners who have been prospecting among the sterile fields of Alaska, report no paying mines, and if there were the seasons are so short that they could not be profitably worked.

Brother Bull is not taking much about the Bulgarian business, but is supposed to be ready for action if Russia should decide to provoke war. The chances are, however, that the trouble will be bridged over for the present.

One night last week 1900 fine salmon were taken on the lower Siuslaw. The Eugene Guard thinks that at no distant day the fishing interests of the Siuslaw will produce more money than all the wheat fields in Lane county.
