**EDITORIAL NOTES.**

Willie Brough, 12 years old, has created an excitement among superstitious people near Turlock, Cal., by apparently setting fire to all objects by his glance, and held responsible for the destruction of \$9000 worth of farm property. Last week he was expelled from a county school, near Turlock, on account of his wonderful freaks. The Brough family refused to have anything to do with him, believing him possessed of a devil. The boy was taken by a farmer and sent to school. On the first day there was five fires in the school; one in the center of the ceiling, one in the teachers desk, one in the teachers wardrobe, and two on the wall. The boy discovered all, and cried from fright. The trustees met and expelled him that night. One Turlock insurance agent has given notice that he will cancel all policies on property occupied by the boy. The neighborhood is in a furor of excitement about the mystery.

Two things which we saw at the mechanics' fair are wholly creditable to Oregon, and cannot be duplicated in the United States. One is the mineral exhibit from Baker county, and the other is the Portland cement. (not imported), and products of the artificial stone company. Every article displayed is made exclusively of Oregon Portland cement; or in other words of a Portland cement, all the component parts of which are obtained in Oregon and cannot be produced elsewhere. We look upon this as of much more value to the country than the gold and bullion exhibit, yet it must be admitted that with the means at hand Baker county makes a most eloquent showing. Twenty other counties of the Pacific northwest could do equally as well, had they the necessary capital to develop the mines. One of the most interesting items in the exhibit from Baker county is from a farm six miles from Baker city which probably cannot be equalled on this continent, or any other for that matter; it is a dish of pure gold taken from a placer claim on one side of the farm, while first-class wheat, flax, apples and enormous potatoes come from the remaining portion. This is without doubt the best exhibition of minerals ever made in the United States, and is probably only one of many others to be made in the future. Countless specimens of gold quartz and nuggets, silver, copper, cinnabar, cobalt, lead, iron and coal are shown, and presented for inspection in the best possible manner.

S. G. Reed is putting up the first five story brick in Portland, and it is a fine one.

It is reported that parties are shipping sheep not free from the scab to Portland markets, from Polk county.

There are now one thousand men engaged between Portland and San Francisco on the line of the Bennett-Mackay cable telegraph company. The wires are strung between Turner and Marion station, and the poles and cross-arms are all up between Marion and Albany.

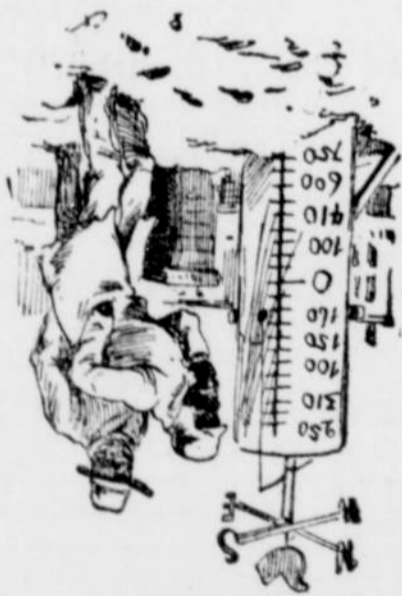

One of the most important and at the same time one of the most novel street parades ever witnessed in Portland was that made by the fat stock association Saturday morning. The procession was witnessed by thousands of people. Van B. Delashmutt, president of the association, has been untiring in his efforts to make this institution a success, and how well he has succeeded is attested by the attendance of visitors and exhibitors. In the parade were eight head of Herefords cattle, six of Galloways, ten Durhams, seven Holsteins, two Guernseys and three Jerseys. This shows that Oregon is both a dairying and beef producing state. And it shows also that what we have stated in these columns about some old foggy scrub-breeder and moss-back getting left, is true.

**Our Figures are the Lowest.**

This is the time of year when Merchants all begin to show low prices. We realize that permanent trade cannot be made unless one has the correct styles and correct prices. We are selling goods at astonishingly low prices on the merits of our wares. We know that there are no better styles of Clothing, no better fitting, no better made than ours, and we believe that no one in McMinnville is selling Clothing as cheaply as we are.

We only ask an inspection of our goods and a comparison of prices.

BISHOP & KAY.

**A Business Proposition to Everybody.**

Having the most complete and best selected stock of goods on the west side, outside of Portland, as conceded by all commercial men, and my facilities for buying being equal to or better than any house here, I am prepared to furnish you with Dry Goods, Clothing, Gents' Furnishing Goods, Boots and Shoes, Groceries, Glassware and Crockery, at prices as low or lower than any house outside of Portland, and if you buy upon same terms as you do when you go to Portland, buy in quantities paying cash, I engage to compete with the retail houses of Portland on the same class of goods, save and except Sugar, Salt and such goods as freight figures up on so that it cannot be done. This does not apply to some cheney houses who would bait you by selling some special article at a sacrifice, and making it up on some other articles. IT SHALL BE STRAIGHT BUSINESS. I especially invite purchasers, to call and make an inspection of the goods and price, before buying elsewhere. All goods marked down during clearance sale will be sold at clearance sale prices. Prices of all goods will be plainly marked on them, and no clerk is authorized to make any cut or deviation on them, and will be discharged for doing so before he has authority. SMALL PROFITS AND QUICK RETURNS IS THE MOTTO. CASH IN HAND OR SHORT CREDITS MUST BE THE RULE. A. J. APPERSON.
