McMinnville, Or. - Oct. 22, 1886

THE WRONG DOCTRINE.

The Albany Bulletin says that the farmers of Oregon, particularly those of counties in the Willamet valley, are being educated up to the doctrine that they must encourage a community of interests among themselves. That they must send away from home for what they want to consume, and give the merchant, the druggist, the harness maker, the blacksmith, the wagon maker, and all trades and business the cold shoulder as far as possible. This doctrine is becoming prevalent among them, is assuming a kind of epidemic form, and they are sending thousands of dollars out of the country every year under the impression that they are making money by so doing. Well, now lets see about it. If there is anything in it for the farmer, he certainly is entitled to it. If it is a wrong move and working against him he should desist from it. In the first place it is contrary to the laws of political economy, which demand an equipoise of interests in all departments of industries, for the healthy growth and maintainance of the country. If a man should wind a bandage tight round one of his limbs, stopping the circulation of the blood, under the plea that his health would be promoted thereby, people would think he was crazy. When a class of men cut themselves off from a community of interests, as far as possible, and establish a little republic of their own, under the impression that they are working for their own good, they are tying a bandage round one of their own limbs, to promote their financial health, which is contrary to the great law of reciprocal benefits that keeps the body politic from stagnation. The interests of the town or city, and the country, are identical and reciprocal. Destroy these reciprocal relations and you injure all. Destroy the town by refusing to support its population with the patronage of your trade, and you destroy your home market and thereby decrease greatly the value of your products and your lands. Build up the town and you increase your home market, increase the value of your lands, and decrease taxation by the growth of taxable property in your midst to share its ratio of the burdens. A piece of land in London sold last week at the rate of \$10,000,000 per acre, which proves this proposition. Every dollar sent out of the country by farmers, under the impression that the cent per cent they realize, by getting goods a little cheaper, is positively detrimental to the farmers' interests, for what they gain by so doing will not pay the interest on the loss they sustain in other directions. These are naked, solid facts, which bear the evidence of truth upon their face, and which cannot be refuted.

The money sent out of the country, if expended in our midst, would pass from hand to hand, several times a year, promoting trade, increasing business, and stimulating every branch of manual industries, by retaining a circulating medium in our midst, the one thing wanting, and the only thing needful to roll onward the ball of prosperity. Farmers, think of these things, weigh them carefully, and after mature deliberations, if you think our premise wrong, we cordially invite you to occupy our columns and set us right. Investigation is the salt that savors the earth, and disposes of the most complex and intricate problems in the science of political economy. Come and see us; let us talk over the situation together.

EDITORIAL NOTES.

Wm. Reid, Esq., the Portland banker, who has just returned from a trip through eastern and southern Oregon, says that Portland capitalists have no idea of the grand future of those sections.

The "boodle" Aldermen from New York city are reinforced by the appearance in Canada of a lot of speculators who knew how to raise \$350,000 on bogus securities, J. C. Ferguson & Co. Chicago pork packers.

The town of Saulesbury, Md., was almost wholly destroyed by fire Sunday evening. It is impossible to enumerate the property loss at this hour, but a rough guess places it at over \$1,000,000. Stores, with their contents, were licked up by the flames, and the streets are full of people whose houses have been destroyed.

Our Figures are the Lowest.

This is the time of year when Merchants all begin to show low prices. We realize that permanent trade cannot be made unless one has the correct styles and correct prices. We are selling goods at astonishingly low prices on the merits of our wares. We know that there are no better styles of Clothing, no better fitting, no better made than ours, and we believe that no one in McMinnville is selling Clothing as cheaply as we are.

We only ask an inspection of our goods and a comparison of prices.

BISHOP & KAY.

A Business Proposition to Everybody.

Having the most complete and best selected stock of goods on the west side, outside of Portland, as conceded by all commercial men, and my facilities for buying being equal to or better than any house here, I am prepared to furnish you with Dry Goods, Clothing, Gents' Furnishing Goods, Boots and Shoes, Groceries, Glassware and Crockery, at prices as low or lower than any house outside of Portland, and if you buy upon same terms as you do when you go to Portland, buy in quantities paying cash, I engage to compete with the retail houses of Portland on the same class of goods, save and except Sugar, Salt and such goods as freight figures up on so that it cannot be done. This does not apply to some cheney houses who would bait you by selling some special article at a sacrifice, and making it up on some other articles. IT SHALL BE STRAIGHT BUSINESS. I especially invite purchasers, to call and make an inspection of the goods and price, before buying elsewhere. All goods marked down during clearance sale will be sold at clearance sale prices. Prices of all goods will be plainly marked on them, and no clerk is authorized to make any cut or deviation on them, and will be discharged for doing so before he has authority. SMALL PROFITS AND QUICK RETURNS IS THE MOTTO. CASH IN HAND OR SHORT CREDITS MUST BE THE RULE. A. J. APPERSON.

No. 1 CITY TRUCK.
