No sooner is the Grant embalming bill paid than it tranapires that the Garfield burial expenses have no been met. These things, together with the memory of doctors with enor mous bills paid only after much wrang ling, are enough to make the dead rise in their graves to rebuke the disputants.

## CORRESPONDENCE.

MONMOUTH
As. I have been in attendance at the state Normal school during the past nonth, and being informed you have no correspondent from this place. I endeavor to occasionally furnish few items for the benefit of those inter
ested in the work of a normal school The number enrolled at the present writing is larger than at the same time of any preceeding year, and the enthu siasm manifested by teachers and stu dents give promise of excellent work for the year
Those desiring to fit themselves for teaching, will feel well repaid for any time they may be able to spend at the state Normal.

Some of the most interesting classes are those in the Methods of schoo management, Essentials of English and Philosophy; each class consists about fifty members, and the wor done is thorough and in a practica

## manner.

The class in methuds of teaching i under the able management of Pres Stanley, who is capable of presenting each subject in its best form, and much benefit is sure to be derived from the work. He is away for a few days on important business; his absence is re gretted, especially by those who are in his classes.
One of the most pleasant half-hour of the day is that spent at chapel exercises which are always conducted in very pleasing and interesting manner, and from words of encouragement and advice from different members faculty, one goes forth feeling refreshed and enthusiastic for the days work
Some annoyance has been cause from having no bell, and to the joy of all a new 600 lb . bell now adorns th belfry of the chapel and arrests any further disturbance. While it was being adjusted in the belfry all were anx ious and eagerly listening to catch the first sound, which I believe has given general satisfaction.

During our president's absence we have been entertained with lectures upon Ancient literature by Prof. Camp bell, who has also favored us, with sev eral lectures upon Physical culture and the gentlemen's athletic association or ganized a few weeks since, is in a flour ishing condition, at least one would judge so from the performances upon the horizontal bar, etc. Steps are now being taken to secure a gymnasium. The ladies not wishing to be behind have organized a ladies athletic association with Miss Doughty as president and Miss Zeiber secretary. Both associations are under the control and management of Prof. Campbell.
In consequence of the longer evenings, two or three social gatherings, the first of the season, have occurred during the past two or three weeks, and very pleasant times have been re ported by those who were present.

As a result of pleasant weather, and the fact that a temporary artist is in our-midst, many are improving the opportunity of having photographs. The
school as a whole, also each room separately, has been photographed.
Last week we were favored with two lectures. The first by Mr. Carlisle, secretary of state board of immigration of Portland, upon Soul Culture. The subject was handled in a very able manner. The second under the auspices of the W. C. T. U. was delivered by Rev. J, W. Webb, of Salem. Sub ject, Temperance. Both lectures were very much appreciated by the Monmouth people, and we will be very much pleased to hear the gentlemen again soon. nine years of her reign has spent only twelve days in Ireland, and Mr. La
