To all who favor him with their patronage. He will keep a wagon specially adapted to the delivery of parcels, trunks satchels, etc., for the accommodation of the public. Orders left at the stable will be promptly attended to at

### American Productions.

A few days since our attention was called to some pretty steep figures in the Alta purporting to be authentic statements of our productions. Hon. J. C. Braly handed the paper to us, and we intended to compare the statement with similiar statements of fact on file in our office. The paper has been mislaid, and for the present we are unable to reproduce the figures which it contained; but from a careful perusal of statistics at hand. We are enabled to state that the annual average productions for five years of the leading cereals has been as follows, from 1880 to 1884 inclusive:

	Bushels.	Value.
Corn.....	1,575,194,108	\$704,370,178
Wheat.....	463,973,318	418,039,187
Oats.....	495,509,478	174,997,858
Rye.....	26,380,880	17,497,742
Barley*....	49,323,940	30,784,173
Buckwheat.	10,781,608	7,556,011

The aggregate of the total is as follows: Production, 2,621,163,331 bushels, valued at \$1,353,245,149. Acres cultivated:

1880.....	120,926,286
1881.....	123,388,070
1882.....	126,568,535
1883.....	130,633,555
1884.....	136,292,766

Total..... 13,105,816,656  
Average of five years... 2,621,163,331

\*Barley is the only cereal imported, in any appreciable quantity. The annual average of the potatoe, hay and tobacco crops for the same period of time was as follows:

	Values.
Potatoes bush's	169,316 \$87,806,536
Hay, tons...	40,106,563 387,374,874
Tobacco, lbs..	483,401,443 42,055,493

A small indication of the imensity of agricultural and commercial transactions can be gleaned from the fact that the receipts of wheat at Minneapolis and Duluth; from August 16th to Thanksgiving day, 1886; amount to 26,000,000 bushels. Minneapolis ground in eleven weeks of this crop year, in round numbers, 7,500,000 bushels. Allowing the other mills to have equalled this, 15,000,000 were shipped in flour from outside mills, leaving 25,009,000 bushels for home consumption during the eleven weeks. These two items increase the 44,000,000 bushels shown to have gone out of farmers hands for the outside world by 8,000,000 bushels, or a

total of 52,000,000 bushels since September 1st.

The potato product is nearly the same as last year, with high-yields in the east and lower in the west; the average, 73 bushels per acre; giving a product of 163,000,000 bushels. The buckwheat crop makes a yield of about 13 bushels per acre promising a product exceeding 11,000,000 bushels. The apparent production of tobacco is at a rate slightly exceeding an average of 70 pounds per acre, or about 485,000,000 pounds, which is equal to the average requirements of consumption and exportation. The average weight of yield for the hay crop is close to 1 2-10 tons per acre, and the apparent product about 45,000,000 tons.

Maryland employs about 60,000 persons in putting up canned goods, an industry in which she now leads all the states of the Union. She supplies 50,000,000 cans of oysters annually. In Hartford county alone 24,000,000 cans of tomatoes, and 12,000,000 cans of corn are prepared for the market every year, and one firm in Frederick city puts up 2,500,000 cans of corn in a season.

Every eviction that occurs in Ireland hastens the coming of home rule.

### A Big Bargain.

A superb home is offered for sale in this city, consisting of half a block of land, a neat and convenient six room cottage, in a high, dry and healthy location. Going at \$900, upon easy terms. Apply at this office.

R. G. Head, whose signature as president of the International Range association of America, demands justice at the hands of the president of the United States and an art of congress to suppress the rebate system of shipping cattle and to check pleuropneumonia, formerly stuck type as a printer in Corvallis. Bob has made the rifle, and rounds up a handsome pile. His present address is Denver, Colorado. In his letter to President Cleveland he says: "I am empowered by the live stock men of the plains, who have more than \$600,000,000 invested in cattle alone, to respectfully invite the attention of your excellency to the imminent danger threatening our herds by the existence of contagious bovine diseases, which, if once introduced to the open ranges of the west, will sweep our entire interests from the earth."
