Near the head waters of the Yaquina, on the road leading to the ranch of Wallis Nash, on Rock Creek, recently occurred a slide of mammoth proportions, says the Newport News. It broke near the top of quite a high mountain and slid down to the little valley below, a distance of nearly half a mile, and being about the same distance in width. There was a small ranch at the foot of the hill, which was entirely covered up. The house, which was unoccupied at the time, was entirely obliterated. The Yaquina was completely dammed and a large lake formed above. All egress and ingress to Mr. Nash's ranch, otherwise than on foot, is completely cut off. It is the most wonderful slide that has ever occurred in this part of the country.
