### CORRESPONDENCE.

#### LaFayette.

Mr. Young has resumed his duties in the school room this week. The pupils in that department are glad to be at work again.

The annual school meeting was held to-day, resulting in the election of P. P. Gates as director and D. V. Olds as clerk. It was decided that we have a nine months school this coming year, and a tax was voted for that purpose, and also for incidental expenses.

A dime sociable was held in Old's Hall on last Thursday evening. A jolly good time was had by all. Such games as "drop the handkerchief," "weevilly wheat," "King Williams," etc., etc., were freely indulged in by old and young. About ten dollars were realized, which will be appropriated toward buying street lamps for the town.

The Drama "Louva, the pauper" was played on Saturday evening to a crowded house. It is an excellent piece, although with too sad an ending. The majority of people like stories or dramas best that always "turn out" all right, and the death of "Louva," in the last act, was not, to an appreciative and sympathetic audience, a satisfactory ending. The acting, by all the characters, was exceptionally good. We have not heard what amount was realized, but it must have been a good sum, from the audience. The proceeds will be used to buy an organ for the new church. SELINA.

Minnesota has made an advance in dealing with the liquor question. Both branches of the legislature passed a bill making the minimum license or tax for selling liquors at retail \$1000 per annum in all the cities of the state having over 10,000 inhabitants, and \$500 per annum in all cities having less than 10,000. The governor will undoubtedly sign the bill. The Pioneer-Press says that complete enforcement of the law will reduce the number of saloons in Minnesota fully one-half, and it believes the law will be enforced quite as easily as similar laws in Nebraska and Missouri.

Interesting exercises will be held at the public school Friday p. m. in Miss Martin's room. Miss Marks classes will join Miss Martin. Miss Eva Cook will give a recitation, Mrs. Loughary an address, etc. All are invited.

Two of the timber causes on trial in the United States court have been cut down from \$79,500 to \$3000. The causes establish the fact that if the parties acted in good faith, as they allege, they were not liable for any more than the value of the timber in the standing tree.

Bishop & Kay have displayed in their show window the finest and largest assorted line of fine shoes ever brought to this city. They have just received them direct from the manufactory in the east. They only ask you to call and examine these goods for yourself.

The inter-state commerce bill places it out of the question for the NPR to contemplate the further extension of their lines; the law stopped their intentions entirely, as far as further building to Astoria was concerned, and until its clauses and sections are interpreted by the commissioners it is a problem as to what would be required of the railroads of the country. "At present it looks as if the burden would fall heaviest on people west of the Rocky mountains." Says Gen. Anderson, and so say we.
