WE CONCUR.—It is flattering and pleasing for the editor of a paper who urges upon the community the practice of patronizing home institutions and merchants, to drop into one of his home stores and see great stacks of printed stationary, procured from foreign establishments, when the same class of printing is no better and as high priced as the home printer would ever think of asking.—Telephone.

The exercises at the public school this p. m., were conducted in Miss Martin's room, with the usual interest.

### Sanitary Regulations Required.

If any person doubts the suggestion of the Reporter that McMinnville absolutely must be provided with a system of sanitary regulations, to prevent a contagion of typhoid during the summer months, let him or her take a walk about town and sniff the odoriferous sniffs now filling the atmosphere from garbage heaps, barn yards and overflowing cess-pools, not far removed from wells on nearly every lot in town. We tell you, the coming season will be the Doctors Harvest in this city unless some radically cleaning up ordinances are speedily created and enforced. But do not take our word for it; make a personal investigation.

An unfortunate girl known as Mollie Flippen, daughter of parents well to do in Washington county, was burned to death in Tacoma yesterday from her clothing taking fire as she stood with her back to the fire-place.
