**Giraffe Clothes Tree**  
Attracts All Children

CHILDREN frequently become deeply attached to one of their playtime toys and will spend countless hours talking over imaginary trips and adventures. Because this Giraffe Clothes Tree seems to understand almost everything a child says, he quickly takes first place in the heart of every little child who sees him.  
Anyone can build this delightful piece of whimsy by following the full size pattern offered below. All materials needed can be purchased at your local lumber yard at small cost. The pattern tells you what to buy and where to use each piece. No special tools, skill or decorating ability is needed. Merely trace the pattern on the wood, saw and assemble.  
Step by step directions are written in language everyone can understand. To simplify decorating and to insure painting the giraffe exactly as illustrated, full size outlines of the nose, eyes, mouth, etc., are printed on the pattern. These are traced on the wood and painted with the colors the pattern specifies.  
Send 25 cents for Joe Giraffe Pattern No. 24 to East-Bid Pattern Company, Dept. W, Pleasantville, N. Y.

**U. S. Woven Cloth Output**  
More than 11,526,000 linear yards of cloth were woven in the United States during 1946, the last full year for which accurate statistics are yet available.
