YOU CAN GO EAST VIA CALIFORNIA FOR NO EXTRA RAIL FARE!

YOU'RE KIDDING!

We're not kidding. It's absolutely true.

You can go to most Eastern destinations via California and return over your choice of northern U. S. lines for no more rail fare than you pay to go straight East and back!

We don't blame people for thinking we're kidding when we tell them about this bargain. It certainly seems like all those extra miles and scenic attractions—plus the winter sunshine of San Francisco, Los Angeles, Palm Springs, Phoenix and Tucson—should cost a whale of a lot more than rail fare.

But it doesn't. In fact, if your destination is New York, you can even add New Orleans to your trip!

The best way we can prove we're not kidding is with an actual ticket. When you go East, let your ticket agent route your ticket East thru California. See for yourself.
