FOOTPRINTS IN THE SANDS OF TIME BY JIM
 The printer shown in this very old Salem steel engraving was more than likely a first rate craftsman. While he had no automatic type-setting machines, he was concerned with all type styles personally. He had to be something of an artist, proofreader and mechanic all in one. And since he put so much personally into his work he was mighty proud of good results. Well, we're not exactly artists down at our place but we do take a great personal interest in every pair of shoes we handle, whether we sell 'em, repair 'em or make 'em. Just like in the good old days.
