To the Woman Who Preserves Foods at Home—

## Preserve Foods by Freezing —

it's easier, quicker—results are better

Freezing foods is simple. It's the easiest way of preserving... requires half the time, half the effort. There are only seven steps to follow for freezing... fourteen for canning.

With a Deepfreeze home freezer, you no longer spend long tiresome hours over a hot stove, or go through the drudgery of washing and sterilizing jars. You save time, work, food and money.

Freezing is nature's way of preserving foods. It seals in all the quality, flavor and food value... it retains the appearance, texture and color of the choice fruits and vegetables you grow or buy. And it keeps them SAFE from food spoilage.

The Journal of the American Dietetics Association (June issue, 1948), Cornell University, states that no case of food poisoning from frozen foods has ever been reported.

Use Luxe Model C-10, 10 cubic ft. holds more than 350 lbs. assorted, perishable foods. Other models for any size purse—any size family. Small down payment. Easy terms.

There's only One!
