AMERICAN BANKING IN ACTION

SOMETHING FOR NOTHING?

Our Government has nothing to give that it does not, first or last, take from the people who produce or earn. Taking from some to give to others can be the beginning of loss of freedom. It is only by working and saving as individuals that we can produce lasting benefits for all. A growing account in the bank, built up by systematic deposits out of earnings, represents the kind of security for which industrious and thrifty American citizens are constantly striving.
