Handy Dyeing Chart

Here's helpful information for the wise home maker to keep in mind before sending garments to her cleaning shop for dyeing. Garment Dyers Guild of America compiled this information.

Materials to be dyed yellow and tan can only be dyed over very pale shades. The colors of the garments or materials sent in to be dyed grey or light shades must be lighter than the color desired. White materials can be dyed any shade, providing there are no stains or sunburns. Black can only be re-dyed black. Corduroy does not dye black as well as colors.

Faded materials as a rule can be dyed several shades darker than their original tones. On materials that are very badly faded, navy blue or black is recommended. There is considerable risk involved in dyeing spots on silks that have been rubbed causing material to be chafed. All garments should be measured before dyeing.

County Says Polio Drive to Continue

The March of Dimes campaign, originally scheduled to end Tuesday night, will continue indefinitely throughout the state, Marion county campaign chairman Howard Ragan was advised Saturday in a telegram from Dr. E. T. Hedlund of Portland, State chairman.

Hedlund pointed out in the telegram that weather conditions in Oregon have prevented several counties from carrying out their various March of Dimes programs, and in order that all these projects might be completed, the Dimes drive is being continued into February.

Highlighting the Marion county anti-polio drive next week is the Elks club dance Tuesday night at Crystal Gardens ballroom in Salem and the appearance of the March of Dimes talent show in two cities.

The vaudeville troupe will present their show at Woodburn Wednesday. The Silverton show, snowed out Monday night will be rescheduled sometime during the second week of February, according to Gene Malecki, in charge of the traveling unit. The show is also scheduled for a Mill City appearance on February 8.
