Marion Forks

Lost Lake situated about 18 miles above Marion Forks on the North Santiam highway was quite a scene of battle yesterday, the opening day of the season, between the anxious fisherman and the wary trout. Maybe they are wariar than we think. One hundred cars lined the highway with about 500 fishermen partaking in the fray. Contrary to all opinions fish were caught by many. One unsuspecting big boy 26 inches in length signed his death warrant when he unwittingly grabbed some fellows bait. Results one nice catch for someone. Three fishermen from Silverton, Oregon, boasted of a limit catch for each one of average size fish of 14 inches. They had Rainbow and Eastern Brook. Some fished with bobber and salmon eggs, some trolled with Doc Shelton spinners in fact they fished all sorts of ways and each thought his way the best. That is the way of the fisherman. The lake was full of boats and had one wanted to make a complete tour of it all they would have had to do was step from one to the other.

Lakes Ann and Marion suffered no such plight they were unmolested but for a couple of parties who braved the snow. Later they will afford many days of good fishing for all comers.
