Engineers Take 7th Straight

The CBI Engineers racked up their seventh straight Mill City league victory Sunday to win the "league pennant" as they downed the Swingsters 10 to 7.

The Engineers got three runs in the first, and two more in the second to take a quick lead. However, the Swingsters bounced back with a run each in the first and second.

After the Engineers had increased their lead to 9 to 2 with a three run blast in the fifth, the Swingsters came right back with a four run blast.

Harry Roberts, who was hit by a batted ball in the fifth, was replaced by Gail Lowery in the sixth. However, Roberts chalked up his third win without a loss in league play.

Top Engineer hitters were Lyle Gould with 3 for 4, and Eldon Lents and John Nicholas with 2 for 4 and a homer each.

Baltimore lead the Swingsters with a pair of doubles in three trips.

Short score: R H E
Engineers 320 130 1-10 15 3
Swingsters 110 040 1-7 9 3

Batteries—Roberts, G. Lowery (6) and Simbeni; Benny and Siler.

Kellys Win Close One From Firemen by 4-3

The Kelly ball club tilted the Mill City Firemen with a four to three decision in softball play last Thursday.

Kelly's had six hits, four runs and two errors against the Firemen's three hits, three runs and three errors.

Good, solid ball was dealt by the two clubs as the game continued a tie game from the fourth inning until the last half of the seventh.

Pitcher Don Carey's two-bagger brought home Gale Carey to salt down his game for Kelly's.

Chuck Stewart tossed and Ed Suter caught for the losing Firemen.

C. Carlile caught for the winning team.

Pitcher Don Carey allowed two walks in the first inning, one developed into a run; and one walk in the fifth inning.

Chuck Stewart walked two in the first inning also, but walked three more in later innings.

Short score: R H E
Firemen 102 000 0-3 4 3
Kellys 100 300 1-4 6 2

Pairings Released For Triple-Header

Pairings have been released for the softball jamboree this Sunday. The opening game will decide who is the possessor of the cellar position in the Mill City league. The Swingsters and Graveyarders will open the triple bill at 1 p.m. Following this game at about 2:15 the Kellys and the Firemen will go at it. These teams split their two league games so both will be anxious to win this one. In the third game of the afternoon first place in the Mill City league will be at stake with the Teamsters and the Engineers battling it out. Dating back to the Detroit dam league the Teamsters lead the series two games to one, but the Engineers took the opening Mill City league game 6-4, and have not lost since then.

Interested groups have not been able to get donation of 10 80-foot cedar poles. If anyone is interested or has information as to these poles they can contact Burton Boroughs at the high school.

W.U. Bearcats Romp Saturday in First Game in Stadium

September 23rd will be dubbed Salem day in recognition of Willamette university's first home game of the 1950 season and the first game to be played in the new McCulloch Stadium, part of the \$200,000 athletic plant.

Central Washington college of Education from Ellensburg will be the first opposing squad to test the Willamette bearcats in action on the new field.

Both season and individual tickets are now on sale at Willamette university and the Howard Maple Sporting Goods store. Season tickets are selling for \$10.00 for the coliseum. Those holding the season passes will be seated in section D on the 50 yard line.

Individual reserved seats will sell for \$1.50, general admission will be \$1.00 and high school and college students showing student body cards will be admitted for 60 cents.

Lights and goal posts will be raised at McCulloch next week. Finishing touches will be placed on the press box which includes all the latest insulation and equipment for such a structure.

'Smoke Eaters' Douse 'Night Crawlers' 5-2

The "Smoke Eaters" doused the "Nite Crawlers" seventh inning fire to hose down the Tuesday softball league game after some fast playing in the fourth inning.

The "hot" Firemen hammered out four hits and brought in five runs in the fourth inning establishing a lead the Nite Crawlers never could break down in the remaining innings in spite of a strong comeback in the seventh.

Wiltze got on first on a walk and later scored. C. Stewart, Ward and D. Stewart each singled adding up runs for the Firemen. Cole hit a nice two bagger to push the Firemen into top dog standing in the game that afternoon.

Ward smacked a three-sacker in the sixth, but lost out on third.

Ray Stiener and Bill Stouse toted up the two runs for the losing Nite Crawlers.

Short score: R H E
Graveyarders 000 100 1-2 7 0
Firemen 000 500 x-5 7 1

CHANCE DISCHARGED FROM HOSPITAL

Kenneth Chance returned today to Mill City after undergoing surgery upon his spine in a Salem hospital.

Mr. and Mrs. Chance are staying with Kenneth's parents until he recuperates from his operation which was rather painful.

Architect's drawing of proposed new football stadium at Oregon State college for which alumni have launched a statewide gift campaign. Sketch shows completed stadium with 62,000 seating capacity, though first objective is two side stands, one covered, with bleachers at the ends, giving an initial capacity of 35,000. Present wooden Bell field stadium has scant 20,000 capacity and is beyond the stage where rebuilding is feasible, engineers have informed college officials.

Timberwolves Play First Football Game Friday

The first football game on schedule for the Mill City high team is to be held on the local field. Chemawa is the opponent for the game, September 22. Although it is not a league game, it is very important, as our next game, a week from Friday at Chemawa, is our first league game. Games with the Indians are always very interesting. All the public is urged to come.

The schedule for Mill City high for the year 1950-51 is as follows:

Sept. 29 — Chemawa there.
Oct. 6 — Gervais here.
Oct. 13 — Jefferson there.
Oct. 20 — Sublimity here.
Oct. 27 — St. Paul there.
Nov. 3 — Philomath here.

* Non-league game.

Cow Product Puts Horsehair in Shade

A new upholstery fiber, caslen, appears likely to put some horses out of business in Argentina.

The new fiber, a by-product of the milk industry, has several advantages over natural fiber for stuffing upholstery, according to Miss Myrtle Carter, Oregon state college extension home furnishings specialist.

First it beats the older, natural fiber on that important item, price. It is cleaner, and it has a controllable diameter and staple length. It is non-allergic and may be treated to give mildew, moth and bacteria resistance.

Curled horsehair, standard as an upholstery stuffer for centuries, is produced by a laborious, time consuming but none-the-less interesting process. Most of it is imported from Argentina where wild horses are rounded up and given a haircut. The raw hair is then exported to the United States.

A ropelike roving, about 80 feet in length, is softened by steam, wound tightly by hand, and then hung for six months to give it a permanent curl. Thus, when the length is torn apart, it has a soft, springy appearance.

ance—both desirable in the upholstery industry.

Mrs. Carter says the chief difficulty with the natural material has been a problem of supply and quality. In Argentina, the wild horses seem to be becoming more scarce and the quality of the hair has also been going down.

Present production of caslen is restricted for furniture and bedding stuffers, and for filters. In the future, this material will be used for a wide variety of purposes. In an uncurled form, for example, it may be blended into textiles to produce novel effects.

Use of the new material will also be good news to persons allergic to horsehair, as well as to the dairy industry since it is an outlet for skimmed milk.
