**Nothing FOR Something**

It's an old trick of the curbstome pitchman to offer you Something for Nothing

"Tell you what I'm going to do, Ladies and Gentlemen, I am going to give you, absolutely free..."

Yes, it's an old trick. But it's still a popular one. Salesmen of Socialism use it the world over. Yet when analyzed, their Something for Nothing always turns out to be—**NOTHING FOR SOMETHING!**

That isn't the way America became the greatest, healthiest Nation in the world. American business has reached its present stature because it believes in giving the customer his money's worth.

Through healthy competition, and the will to serve, American medicine has created the finest system of medical care in the world.

Through ingenuity and free enterprise, American citizens have higher incomes, better education, better health and more freedom than citizens of any other great Nation on earth.

Freedom is America's heritage, and Americans cherish it deeply—for themselves and for the entire world. In exchange for this good way of life, the political pitchman offers us the quack remedy of Something for Nothing...of "free" medical care, doled out by politicians.

AMERICA JUST CAN'T BUY THAT!
