Holiday Wedding For Miss McClain

Miss Shirley McClain, daughter of Mr. and Mrs. Raymond B. McClain of Mill City exchanged vows with Lloyd E. Dahlin, son of Mrs. Jesse Dahlin of Newport, Wash., during a holiday wedding before Rev. Omar Barth at the Calvary Baptist church in Salem.

The bride wore a gown fashioned of white lace over satin with a portrait collar and a full skirt ending in a train—all designed and made by Mrs. Gordon McClain, sister-in-law of the bride. The bride held a Bible accented by a white orchid. A halo of braided illusion and seed pearls set off a veil of illusion.

George Pickett of Richland, Wash., was the soloist and Bernard McClain of Portland was organist. Lighting the tapers were Miss Dolores Dahlin, sister of the groom, and Miss Kathleen Runnels of Newport, Wash.

Miss Mary McClain was her sister's honor maid and Miss Mollie Hupp of Newport, Wash., and Miss Shirley Kienholz of Spokane were bridesmaids. Their honor maid wore green and the attendants were in rose. They wore ruffled halos of matching horse-hair braid and carried pastel nosegays.

William Dahlin of Newport, Wash., was his brother's best man and ushers were Gordon McClain of Portland, brother of the bride, and Clarence Scott of Vancouver.

Mrs. McClain chose a gown of teal blue crepe with wine accessories and corsage of pink roses for her daughter's wedding.

The newlyweds greeted their guests at a reception in the fireplace room. Mrs. James Cuthbert and Miss Mary Schlegel poured. Mrs. Walter McClain of Seattle and Mrs. Gordon McClain of Portland cut the cake. Assisting were Mrs. Bruce Willis and Miss Joyce Gorton.

After a wedding trip the couple will be at home in Corvallis, where he is attending Oregon State college. For traveling the bride donned a berry red suit with matching hat and grey accessories.

HAVE A BETTER KITCHEN

In the homemaker's quest to have a better kitchen, the automatic food waste disposer is playing an increasingly important part.

Once she has used it and experienced the convenience it brings, she becomes an enthusiastic booster for this labor-saving appliance.

Just what should a homemaker expect from her automatic disposer? Well, first, it eliminates the necessity for handling messy, sticky garbage, and removes the need for the often-odorous garbage container.

By removing the garbage can, the disposer takes away a favorite breeding place for flies and a popular eating spot for rodents.

The disposer saves time, too, for there's no need to wrap food wastes and make the trek to the alley garbage can. It's easy to operate and the new disposers give years of trouble-free service.

Along with the convenience gained with this unit, the homemaker has some responsibilities, too. She should remember that it's a food waste disposer, not a rubbish disposer. Tin cans, string, broken dishes, and other non-organic material belong in the rubbish heap.

She should always use cold water in flushing wastes through the disposer for it congeals grease, permitting it to wash down the drain. She should not let wastes accumulate in the unit to cause odors. Large bones, melon rinds, and grapefruit shells should be cut into smaller segments so the grinding rotors can get a "foothold."

Following these simple precautions, the homemaker will find the food waste disposer one of her greatest kitchen helpers.

FROM DARKNESS TO LIGHT

Ridiculous, you say? There never was a kitchen like this? Ask the lady who owned it! Dark and dreary as a dungeon (it is, in fact, a basement room), it was not only a depressing place in which to work but lack of storage space forced the homemaker to clutter the counter surface. And look at the old zinc-lined sink and exposed plumbing. What could be done? See below.

As different as light from dark—but it's the same room after treatment by the Youngstown Kitchens Planning Service with standard steel kitchen units. Cheerful and convenient, this new kitchen provides the homemaker with everything she needs to lighten her housework. But words aren't needed to describe the tremendous change. Just look.
