Canyon-Wide Chamber --- Guaranty of a Future

The North Santiam Canyon is going to have a North Santiam Chamber of Commerce. Long has the desire for such an idea existed, but many said, "It's no use-citizens won't go for it."

Those who favor the crusade for change say, "We will do it." The really fine things of life come through those people who give unselfishly of their time and money for such civic developments as a canyon-wide chamber of commerce represents.

We need an active and efficient North Santiam Chamber of Commerce . . an organization that can and will serve our needs and those of future

There has been fine co-operation throughout the Canyon in this undertaking. All realize the need and desirability of having a North Santiam Chamber of Commerce. We need it now. Even one new industry is priceless, but this new, effective organization can bring many fine year 'round industries to the North Santiam.

No wonder it is being supported by people of all communities and walks of life. There can be no calculation of the value of a canyon-wide chamber of commerce. There is no measuring stick for the ambitions of men.

To those who now step into the activity of this Canyon project their act will live and be a pattern not only in our lifetime but to the coming citizens of the Canyon.

What is the nature of the organization we are building? It will be an organization fired with the spirit of mutual assistance. It will be a community directed, non-profit and non-sectarian chamber of commerce. It will be a chamber of commerce with the spirit of our nation's Founding Fathers. None will be refused the right of equal representation-regardless of where they live in the North Santiam valley.

This can only be done by a North Santiam Canyon Chamber of Commerce. This chamber will serve all equally well.

If we all "do", we will have this canyon-wide chamber of commerce. Now is the time-tomorrow will be too late to serve you,

Canyon Supporters

Tell the advertisers when you see their ads in The Enterprise that you saw it there. Tell them also when you see their ads in advertising sheets that are published in Salem and elsewhere outside of the Canyonask them if they wish to help Salem or the Canyon grow?

The Enterprise has endeavored to publish a newspaper for the interests of the Canyon-it will continue to work for the Canyon so long as there of the Canyon—it will continue to work for the Canyon so long as there is a Canyon to work for—but readers and advertisers alike must realize Power Facility that it can do a good job only so long as they support it.

We have given many columns of FREE advertising to the Red Cross, Items Budgeted the Blood Bank, the March of Dimes, the Air Show, women's organizations, and civic organizations of all kinds-but do the advertising sheets give such free advertising? No. It goes out and sells a page of advertising to gullible merchants in Salem and the Canyon.

We helped to put over the drive for a Santiam Memorial Hospitalwe exposed irregular dealings in the local school board-we kept quiet and allowed a bill to be pushed through the Oregon legislature that would correct other illegal school board affairs. We stand ready to promote other efforts that the citizens of this Canyon want-or to expose anything in the neville Power Administration district dition most driveways and private future that is not to the good and welfare of the Canyon.

must demonstrate your willingness to help. We must have the support of Northwest Columbia River power systhe citizens of this Canyon. You cannot give that support by reading or tem including \$69,500,000 for conto Mr. and Mrs. Paul Payton of Salem. advertising in advertising sheets printed in Salem-whose only purpose struction and liquidation of contracts, is to take your money out of the Canyon.

We desire that the citizens of the Canyon and Mill City in particular tenance. become aware of the fact that the columns of the Mill City Enterprise carries first and assembles most of the news of Mill City and much of the Canyon. Later the information gathered by this humble weekly newspaper is distributed to you again by a Salem advertising sheet and even the dailies ules for Grand Coulee, McNary, Meriserving this area. We have gathered this news about you in spite of a dian (Lookout Point), and Detroit certain reluctance upon the part of some in funneling information to the dams, and continue work on the south newspaper serving Mill City to the best of its ability, even though some west Oregon loop service, Trommers-

may not like this newspaper. Some business men seem to think they can afford to advertise in Salem papers and neglect to support their local paper-you as buyers should let them the power situation in local shortage go to Salem for their customers-but likewise you should not fail to shop at home first-I can assure you that you can't save by traveling all the way to Salem to purchase almost any item you need. You must all work together and we will build this Canyon into a better place in which to live. It's time you people who wish to live and work in the Canyon wake

It Takes a Youngster to Tell Rose All About Show Business

By BILLY ROSE One of the actors I recently interviewed for my television show

was a young fellow named Bill Ferguson.

"Haven't I seen you in something?" I asked.
"If you didn't blink," said the youngster, "you might have noticed
me in the chorus of 'South Pacific.'"
"Still with the show?"
"No, I left it a few months ago to try my luck at television."
"Show business is a tough racket," I oracled.

"I haven't found it so," said Bill.

"Mater of fact, ever since I got to town it's been one good break after another. Incidentally, your friend, Dick Rodgers, was

responsible for the first one." "What did Richard do for you?" I

"Well," said the youngster, "it Mr. started when Rodgers and Mr. Hammerstein were

holding auditions Billy Rose for the chorus and bit parts in 'South Pacific.' My wife—her stage name is Evelyn Colby—also does some singing and dancing, so we tried out for the show together. Only one of us, however, got picked-Evelyn."

"DOESN'T SOUND like too good

beginning."
"It wasn't," said Bill, "but we figured there wasn't any point moping about it—the important thing was not be be separated. So when he show went up to New Haven to break in, I went along with it and, luck would have it, I landed a ob as waiter in Casey's Chop House the place on College Street across from the Shubert Theatre.

"It was the best thing that could have happened," the youngster went on, "because a couple of days before the opening who should come in and plunk himself down at one of my tables but Mr. Rodgers. "He recognized me, and when he

quizzed me about what I was doing in a waiter's get-up, I told him had taken the job so as to be near my wife. The story seemed to tickle him, and when he went back to the at the home of Mr. and Mrs. Ed Northeatre I understand he held up a man in Portland before returning rehearsal to repeat it to Oscar Ham-merstein and Josh Logan, the director. An hour later the three of them came into the chop house looking for me, and the next morning I was on the stage of the Shubert learning the lyrics of "There Is Nothing Like A Dame."

"CUTE STORY," I said.
"There's more to it," said Bill.
'A columnist heard about what happened and wrote it up, and as a result I got a couple of television nibbles. Then the nicest thing of all happened. One night Margaret Tru- at Fort Lewis, Wash. man came backstage, and after con gratulating Pinza and Mary Martin she asked for the Bill Ferguson she had read about. You see, we went to the same high school in Independence, Missouri, and broke into the singing business together in the choir of the Baptist Church."

"Did your wife get to meet the President's daughter?"

"Not that evening," said the youngster, "but she did a few days later when Miss Truman came around to our apartment to see the new baby."

"It's been nice talking to you," I said, "but I'm afraid I can't use you on next week's show—I'm looking for someone to play a sad, mis-erable little man."

up and support your local newspaper 100%—you may not agree with every thing we print-but we don't always agree with it either! This much is true-we will always keep our columns open to the benefit of the people.

Watch Out For The "Blind-Spots"

Stopped by Squint Miller's farm the other day and saw a vinegar bottle in his kitchen with an oversized cucumber inside it. The cucumber filled the whole bottle.

"What's a cucumber doing in there?" I asked him. "That's my 'blind-spot' reminder," says Squint. "My grandmother kept one in her kitchen to remind her to take stock of herself now and

"I slipped that bottle over the cucumber when it was just starting to grow on the vine," he went on. "And like certain viewpoints,

not noticed, it just grew and grew -now it's there to stay."

From where I sit, we could take a cue from Squint and watch for our own "blind-spots" and prejudices before they grow too big to get rid of. We've got to respect our neighbor's right to his preferences ... preferences for a certain make of car, a favorite movie star, or a temperate glass of beer after work. We won't be tripped by any blind spots if we keep our eyes-and minds-open!

Beanies For Teen-Agers

March 15, 1951

The jockey cap is the latest fancy to strike both teen-agers and their mothers, reports Miss Lucy Lane, extension clothing specialist at Oregon State college. This little sport hat is more practical than the "beanie" which it replaces, she adds, since bangs are back in style and need extra protection from wind and water to hold their curl. During dry weather,

the visor is a good sun shield. Best of all, it's simple and inexpensive to make, says the specialist. Any commercial pattern is easy to follow, and using a bright remnant of material cuts down on cost. Stiffen the visor with any heavy material. Before entering the army, he made Buckram is not a good choice unless put between two layers of other cloth, Upon completion of the Ordnance Miss Lane cautions, because it loses ourse, Pvt. Jackson will return to its shape when wet. Buttons, bows,
