

"THE PAPER THAT HAS NO ENEMIES HAS NO FRIENDS."
—George Putnam

Korean Show-Down

More human fuel reddens the sickening fire in Korea. The much awaited and planned against spring push of the Reds now greedily gnaws away at the flesh of world peace.

As the Korean flames leap, we again ask—Why is the United Nations police force in Korea? The only real answer that can be given is that the police force is in Korea because there they enforce the desires of the free nations for freedom and peace.

The United Nations are in Korea for the same reason that the United States aided Greece when she was being over-run by the Reds and flew the Berlin air-lift when the Reds began choking the life-blood of Berlin.

The United Nations police force is using the tools of war because the foes of freedom and peace are using such tools. The United Nations police force must bring an end to this use of war tools on the small, helpless nation of Korea.

The Reds have not dared wage a full scale air attack against the United Nations police force. The United Nations are not seriously tied down—even now—because of lack of bombing of Manchurian air and supply bases. World War III probably would come should the United Nations police force bomb these bases.

Hordes of Red troops, poorly supplied, can move only a limited distance under the withering fire-power of the United Nations police force. Without great harm to themselves United Nations fighter planes and bombers attack and strafe again and again the Reds.

Latest reports from Korea show how gristly the toll of these lethal weapons on the Reds. It is strikingly clear that Russia is willing that thousands of Chinese Reds be chewed up in the Korean meat-grinder operated by the United Nations police force.

Russia carefully avoids openly throwing her own uniformed men and identified equipment into the flames. Russia is loosing face rapidly in Asia. Russian oil is pouring into the Red tools of war now in use in Korea. Russia has little of this precious oil that can be so used.

The United Nations police are heating down Stalin's dupes in Korea. But Stalin is betting that you, the people of the United States, will quit and mutter "to heck with Korea". He smiles broadly when Senator Taft says that the President of the United States has no constitutional authority to send troops abroad without congressional debate.

The communists are very happy indeed when Taft says that Truman is trying to force us into a war with Russia . . . that is exactly what Stalin preaches all of the time behind the Iron Curtain.

The men sweating and bleeding for you and me in Korea have not put down their arms and started arguing and thereby dropped the flag of our cause into the dust. The least we can do is make their suffering count in the cause of freedom and peace for all. We must focus our eyes upon the greatness of humanity as it is here being lived by United Nations men in Korea.

From where I sit ... by Joe Marsh

You've Got To Hand It To Sandy

Sandy Johnson's wife "Tiny" suddenly asks him at breakfast the other morning "Why don't you build me some bluebird houses?"

"What for?" asks Sandy. "Why for bluebirds, of course" says Tiny. "We always had 'em at home when I was a girl. May sound silly—but I sorta miss 'em."

Well, I know how busy Sandy's been lately and the thought of taking time out to build bird-houses could have made a lot of men blow their top. But not Sandy. He says, "No, Tiny. It doesn't sound silly. I think it's a

wonderful idea—we're going to have bluebirds—and I'm starting on some birdhouses tonight."

From where I sit, we could do with more understanding people like Sandy—and Tiny, too. He respects her likings, and she respects his. He likes a temperate glass of beer now and then—and although Tiny sticks to coffee, whatever Sandy likes is O.K. with her. They live and let live—and that's why they live so happily.

CIVIL DEFENSE

Standard Training Is Needed By Civil Defense Volunteers

By Walter A. Shead

(This is the fourth in a series of five articles on the civilian defense program.)

AUTHORITY in the line of command for the tremendous civil defense army needed in case of full scale war stems from the President, through Civil Defense Administrator Millard Caldwell, to the 48 state civil defense directors and down the line to the appointed officers in cities, towns and counties throughout the nation.

National defense against atomic, biological and chemical warfare rests upon thorough training to start in a civil defense staff college to be established for top civil defense planners and administrators.

The college will serve as a source of all latest information. Regional technical training centers are also planned where this information will be disseminated in the civil defense training programs in the states and local communities. The technical centers will be staffed by thoroughly trained men and women in all phases of the work and will provide means for standardization of the technical and special training necessary. Standardization is a

prime factor for successful mutual aid and mobile support which require a force of uniformly trained civil defense workers.

Graduates of the federal technical training centers will train other civil defense workers and trainers within the states, who, in turn, will train the local volunteers. Under the program, two kinds of training will be provided—general and specialized. General training will consist of instruction in basic subjects to include fundamental principles of organization and operation, basic first aid and improvised rescue operations.

The American Red Cross, officials of the public health service and other organizations concerned with health services will conduct certain phases of specialized training such as first aid and nurses' aid training. Many medical officers of the military services, public health services, the veterans administration and other organizations have taken specialized courses in defenses against atomic warfare and these will be asked to assist in the training program.

Already, in the atomic warfare field, 148 physicians from 38 states have taken courses given by the atomic energy commission in co-operation with the national security resources board. Similar courses for nurses have been started. Other courses either federal, state or local, will be available for dentists, veterinarians and other professional and technical people working in health services. State health officials have taken courses in radio-

logical monitoring which included many aspects of the civil defense program.

Similar training courses will be available for biological warfare against humans and animals, against chemical warfare and against biological warfare against crops. Courses in these subjects will have three prime aspects—detection, treatment of casualties, and methods of decontamination. Training will be available for nurses aids and home nurses, radiological monitors, auxiliary sanitary personnel and auxiliary laboratory workers.

For large segments of the general public, the major type of training will be in the category of first aid—what to do first in any of the fields of civil defense. The goal is 20,000,000 trained first-aiders in a 22-hour course which will also include training in special weapons defense and in procedures for treating minor illnesses in time of emergency when physicians will be overburdened with casualties.

Every state will operate under a uniform system of organization, equipment and procedure. Establishment of control stations in strategic areas, of first aid stations and the implementation of all necessary ambulances, hospitalization, fire fighting equipment and a score of other defense mechanisms will be taught. It is estimated that approximately 35 per cent of surviving casualties in an atomic bomb burst would require transportation by litter to first-aid stations, hence the importance of first aid work. As an example, if there were 40,000 injured survivors, about 13,000 probably would have to be carried by litters. Another 27,000 could walk, or would be taken to first aid stations by other means.

So the most important function is in first aid training, since even fire-fighters, rescue teams, police, engineering and other personnel, first to contact the injured, would be called upon for first aid to casualties.

So every individual should watch for announcement of establishment of regional training centers.

LYONS

By EVA BRESSLER

Mrs. M. L. Westover, the former Miss Shiela Baltzer, has returned to the home of her parents, Mr. and Mrs. Art Baltzer. She has been in San Diego with her husband who is in the service and overseas.

Mrs. Curtis Kinzer and infant son, Dennis Allen, has returned from the Salem General hospital.

Mrs. Floyd Bassett, Mrs. Glen Julian and Mrs. Orville Downing were hostesses for a shower honoring Mrs. Hugh Johnson at the community club house Thursday evening. Games and opening of the gifts furnished the entertainment. Dainty refreshments were served to Mrs. Johnson, honored guest, and Mesdames John Kunkle, Harley Scott, Earl Allen, Oscar Nau, Chester Roy, George Huffman, Clyde Bressler, Albert Carr, George Berry, Bob Carleton, Jack Duggan, Everett Limbeck, Elmer Limbeck, Percy Hiatt, John Neal, Cleve O'Neil, Earl Thayer, Alex Bodeker, Glen Julian, Floyd Bassett, Orville Downing, Mrs. Alice Huber, Mrs. Cora Jenner, Bill Kirgil all of Lyons, Francis Jungwirth, Stanley Forrest of Lyons, Wallace Bevier of Mill City and Erroll Kinta of Sublimity.

Mr. and Mrs. Arnold Burgess of Klamath Falls visited relatives in

Lyons Saturday and Sunday. They were guests at the home of her sister and family, Mr. and Mrs. Floyd Bassett. They also visited relatives in Mill City and Gates.

Mrs. Alice Huber was hostess at the Womens Society of Christian service at the community club house Tuesday afternoon. Mrs. George Huffman presided in the absence of Mrs. John Hargreaves. Plans were completed for the father-and-son banquet at the community hall Thursday evening. Present for the meeting were Mesdames Albert Julian, Eugene Roy, Wood Oliver, Floyd Bassett, George Huffman, Glen Julian, Chester Roy, Burl Smith.

Mrs. Carrie Nau was hostess for the afternoon card club at her home Wednesday afternoon. Several tables of 500 followed a one-thirty dessert luncheon. High score went to Ruth Lyons; second high to Thelma Nydiger; and low to Bea Hiatt. Present for the party were Garnett Bassett, Wilma Free, Ida Free, Bea Hiatt, Thelma Nydiger, Doreen Hellmn, Dorothy Hellmn, Mabel Downing, Ruth Lyons, Ethel Huffman, Cora Jenner, Mildred Carr, and Mrs. Roy.

Several from Lyons attended the reception honoring Mr. and Mrs. Alva Wise on their Golden Wedding anniversary at the Christian church in Jefferson Sunday. Mr. and Mrs. Wise now reside in Marion and are former residents of this community.

NEW McCULLOCH

Model 7-55 Chain Saw

We are proud to present this
great new chain saw—the most
powerful in the McCulloch line.

with
Cushioned
Power!

Look at these features:

Amazing Smoothness! Cushioned Power! Easy to use all day because special rotating ball-bearers geared to crankshaft neutralize vibration.

Power! Light Weight! Full 7 horsepower, yet weighs only 55 pounds with 20-inch chain and blade.

Fast Starting! Superhot spark, automatic-rewind starter, push-button primer.

Easy Operation! Chain oiler and tank built in, controlled from handlebar. Simplified grouped controls—throttle controls and ignition switch on handlebar for fingertip operation.

Safety! Full automatic centrifugal clutch disengages chain when engine is idling.

Convenience! Ignition points easily accessible in exterior housing. Full 360° swivel transmission locks at any angle. Floodless carburetor permits full-power sawing in any position.

Try It Yourself...
Feel Its Power
and
Smoothness!

Stop in today and try out
the new McCulloch 7-55...
with Cushioned Power!
Manufactured by McCulloch—
