ELECTRICAL TIPS FOR THE HOME

If You Plan to Modernize or Redecorate Your Kitchen . . .

DON'T overlook modernization of your lighting. The old-fashioned practice of one ceiling fixture in the center of the kitchen is inefficient. Too often it causes you to work in your own shadow at the range, sink, table or food preparation counters.

DO install lighting over each work area before redecorating. It'll save refinishing and extra wiring costs. Also, it'll make work easier and pleasanter. To avoid accidents, from groping for a light in the dark, put a switch near each entrance.
