GOOD HEALTH

1. WHY IS CANCER TREATMENT LIKE GARDENING?

2. HOW LONG DOES PNEUMONIA HOSPITALIZE YOU?

3. WHAT DO COLDS COST?

Answer to Question No. 1:
The Sloan-Kettering Institute points out that, since cancer is like a terrible weed, the destruction of the disorderly growth of cancer cells follows gardening methods: pulling out the weeds (surgery); burning out the weeds (irradiation); altering the soil (changing body fluids by giving steroid hormones); killing the weed in the soil (giving treatment to kill cancer cells, yet leaving normal cells unharmed), exploding weeds with chemicals (use of chemicals which explode cancer cells). Every gardener knows weeds are easiest to destroy when they first appear. The same is true of cancer.

Answer to Question No. 2:
It used to be that pneumonia would keep you in the hospital for as long as five weeks. Now, because of modern drugs and techniques, many cases of pneumonia can be discharged from the hospital in five days. Although hospital costs have risen, because modern hospitals, adapted to high standards of medical care, are expensive to operate, this reduction in the length of hospital stay has actually lessened the expense of illness.

Answer to Question No. 3:
Authorities say 40 per cent of all days lost from work are due to colds. Assuming a \$7 a day loss in earnings or productive capacity, colds cost \$420,000,000 a year on this basis alone. In addition, they often lead to more expensive and more serious illnesses.

PEOPLE WITH FLORID COMPLEXIONS ARE NOT ESPECIALLY HEALTHY

BUY 12 BILLS VENNY

The idea that "rosy cheeks" and a florid complexion in general are a sign of robust health is all a mistake. Medical men say that some of the most serious diseases are accompanied by florid complexions, and that such a condition may be a sign of illness and poor health rather than vigorous vitality. Fevers, which accompany many diseases, will cause a flushed face which could be mistaken for a sign of health.

Defuzzing News

Sun time is swim time and bathing suits should show off pretty, hair-free legs along with the wonderful new cosmetic—Sofair, the liquid shaving cream for women to use with a razor. A few drops cream up instantly. No water is needed.

FOR A GAY EVENING

Five-twenty and you are leaving the office, fagged-out after a hard day. Your date's calling for you at seven. It takes thirty minutes to get home. How can you use the remaining hour and ten minutes to make yourself fresh and sparkling for the evening? It's a tight schedule, but it can be done.

Start with a shower; then a facial cream to smooth the wrinkles out of your skin. Next a half-hour lie-down on the bed to relax taut muscles and nerves. But first take a couple of sterile gauze pads out of their glassine envelopes. Wring them out in witch hazel, and lie with one over each closed eyelid to help bring the sparkle back to tired eyes.

It's six-thirty-five now, and not a minute to spare. Quick with the eyebrow pencil, the eye shadow and the mascara. While the lashes are still moist with the mascara, use the eyelash curler to give your lashes the upward curve that is the secret of the coveted wide-eyed look.

Ten minutes left to remove the facial cream with another of those sterile gauze pads, apply your make-up, comb out your hair and slip into your dress. It's seven-five. The door bell rings. Those extra five minutes helped. Your hard day is behind you. You are ready to step out, refreshed and sparkling, for a gay evening.
