

## Wanted by FBI

HENRY WINSTON

The FBI has requested alert citizens and law enforcement agencies to assist in locating Henry Winston, National Organizational Secretary of the Communist Party, U. S. A., who has been convicted of conspiracy to advocate the violent overthrow of the government and who has gone in hiding to avoid being committed to prison. A description of Winston is as follows:

Age, 40, born April 2, 1911, at Hattiesburg, Mississippi; height, 5'11½"; weight, 200 pounds; eyes, brown; hair, black, kinky; complexion, dark; build, stocky; race, Negro; nationality, American; scars and marks, face pockmarked.

Winston resided in Kansas City, Missouri, prior to 1932, and worked at miscellaneous jobs in the Kansas City area. Since that time he has lived in New York City.

He likes baseball and other sports; dresses fairly well and does not speak with an accent. He has worked as a writer, organizer and lecturer.

## LYONS

By MRS. EVA BRESSLER

A family gathering was held at the home of Mr. and Mrs. Sam Bridges over the weekend. Twenty-three stayed Saturday night and 28 were present for breakfast, Sunday morning and 33 for dinner Sunday. Guests of the Bridges were Mr. and Mrs. Harry Gould, Dale, Bobby, Maxine and Debbie from Van Nuys, Calif., Mrs. Bob Hanson and daughters, Carolee and Bobby Jane, and grandson, Steven, from Oakland, Calif., Mr. and Mrs. Leon Berg, Sharon and Billy, and Don. Don is a marine home on rotation from Korea. He was awarded the purple heart. Nada Zovrdny and Shelley, Springfield, Jim Bridges, Cottage Grove, Mrs. Clare Lee, Mr. and Mrs. Warren Bridges, Eugene; Mr. and Mrs. Verlin Long and three children, Dexter, were family guests also.

Mrs. Burl Smith is spending this week at White Salmon, Wash., with her husband, who is employed there.

Miss Adina Joy of San Francisco, Calif., visited at the home of her sister and family, Mr. and Mrs. John Prideaux. Miss Joy is assistant pastor of the inter-racial church in San Francisco, Calif.

A dinner was held at the home of Mr. and Mrs. Sam Culwell, honoring them on their birthday anniversaries. Covers were laid for the honored guests, Mr. and Mrs. Culwell and guests Mr. and Mrs. Ray Short, Salem; Mr. and Mrs. A. B. Culwell, Portland; Mr. and Mrs. Elmer Culwell, Mr. and Mrs. Howard Naue, Hershel Culwell and Harlin Gibson, Lyons.

Mr. Melvin Peek has returned home from the Salem Memorial hospital following surgery there.

Mr. and Mrs. Harry Dounit and sons, Milhon and Phillip, Cathlamet, Wash., visited at the Burl Smith home over the week-end. Donna returned home with them for a week's visit.

Don Stone of Tacoma visited at the home of his aunt and uncle Mr. and Mrs. Vern Goodell. He also visited at the Jack and Clarence Goodell homes in Lyons and the Charlie Crook home in Mehama.

Mr. and Mrs. Earl Leech and children have moved to Drain. The Leeches lived in the house next to the variety store.

Mr. A. A. Andersen of Newberg gave the morning sermon at the Lyons Methodist church, Sunday morning. He was accompanied by a Mr. Putman also of Newberg.

Mrs. Ann Leichtigner was taken to the Albany hospital, Monday with a broken leg. She received the injury while unloading a truck at the bean yard.

A meeting of the officers and teachers of the Lyons Methodist Sunday school was held Thursday evening at the parsonage. Plans for the fall and winter months were made. Much discussion was held with Mrs. John Prideaux, superintendent of the Sunday school, in charge. Present were Rev. and Mrs. R. A. Feenstra, Mrs. Ed Hargreaves, Mrs. Burl Smith, Ivan Smith, Mr. and Mrs. John Prideaux, Mrs. Alice Huber, Willard Hartnell, Mrs. Alex Bodeker, Mrs. Clyde Bressler, and Miss Adina Joy of San Francisco Calif. Miss Joy was a guest for the evening.

## GOOD HEALTH

1. HOW DO YOU CATCH MEASLES?

2. DO WOMEN GO TO THE DENTIST MORE OFTEN THAN MEN?

3. WHY ARE FEWER CHILDREN IN HOSPITALS TODAY?

Answer to Question No. 1:

1. Measles is a virus disease which usually is spread by coughing or sneezing—before the skin eruptions appear and have indicated the nature of the ailment. Direct contact with a person who is coming down with measles is the usual mode of transmission. Between exposure and first symptoms, a week to ten days will elapse.

Answer to Question No. 2:

2. More women than men receive dental treatment in the United States each year. Fourteen women visit the dentist for every ten men. A total of 60,000,000 persons in the nation re-

ceived some type of dental treatment during 1949.

Answer to Question No. 3:

3. Fewer child patients are hospitalized today for several reasons: they are protected from disease by preventive measures such as immunization, well-balanced diets, better sanitation and improved health knowledge on the part of their parents. With infants there is much less incidence of intestinal disorders because of improved knowledge of diet. The use of sulfonamides and antibiotics in the early stages of disease has also reduced the need for child hospital beds.

## MEHAMA

By JEAN ROBERTS

Mr. and Mrs. Harry Monroe and Mr. and Mrs. Floyd Monroe, recently returned from a vacation in Canadian national parks, describe the territory there as teeming with elk, moose and bear. Lakes, too, are plentiful and provide natural irrigation. Fishing is reported as being good also.

Leaving Sandpoint, Idaho, they motored through Kootenay, Banff, and Jasper Parks. Passing through Kicking Horse pass they stopped at the Continental Divide. The divide is so named because two streams head there. One flows to the Pacific Ocean and the other towards the Atlantic.

Banff Park, which is open the year 'round, draws tourists from many states. The Monroes counted 22 different state licenses on cars parked near the hotel. Accommodations, however, were reasonable. Large 3-bedroom cabins, fully equipped, rented for \$10 per night.

Canadian customs, however, differ from ours. Bread is not sliced and seldom wrapped. Cigarettes sell for 48 cents a package and the Canadian government tax on the purchase of a new automobile is \$640. There are

very few new cars on the road. Mechanics in a Buick garage crowded around the Monroe car and examined the non-glare glass, since such glass was entirely new to them.

They returned via Edmonton, and described scenes of large wheat fields in the centers of which sometimes might be seen an oil well.

Mrs. Floyd Monroe readily announced that they knew of an honest person because of their trip. On the trip home her purse containing \$180 in currency and identification papers, was lost near Spokane, Wash. Upon reaching home, she was immediately notified that her purse had been found by a woman and was being returned.

Still other Mehama residents who have recently returned from an interesting vacation are Mr. and Mrs. Jerry Coffman. Motoring to Anacortes, Wash., they boarded a ferry for a two and one-half hour trip to the San Juan islands in northern Washington. They put in at Friday Harbor where they engaged in rabbit hunting. Large Belgian hares overrun the island and provide much sport. The Coffmans, however, report a good time but no game bagged.

## Sportsmanlike DRIVING

AVERAGES				
	WEIGHT	SPEED	VOLUME	HORSE POWER
MAN	150	3 m.p.h.	2½ cu. ft.	⅓
CAR	3000	35 m.p.h.	264 cu. ft.	85

### WALK SAFELY

Are you a chip-on-the-shoulder pedestrian—challenging automobiles to the right-of-way?

Take a look at yourself! How would you like to "weigh in" for a combat with a car, asks the AAA driver training book, "Sportsmanlike Driving."

Cars clearly have the edge over pedestrians—in size, weight, strength, and hardness of material. Flesh, blood, and bones must "throw in the towel" long before steel, glass, and chromium.

A driver in his car is practically encased in armor. So there's

every sportsmanlike reason why he should show courtesy to the weaker pedestrian. But if a driver fails to show that courtesy, pedestrians with good sense keep out of his way.

What chance has a 150-pound pedestrian, walking at 3 or 4 miles per hour, against a 3,000-pound car at even the low speed of 20 miles per hour?

The law gives pedestrians the right-of-way. Common sense often takes it away from them.

When car and pedestrian collide, it is the pedestrian who is taken to the ambulance!

## NEW McCULLOCH

Model 7-55 Chain Saw

We are proud to present this great new chain saw—the most powerful in the McCulloch line.

with Cushioned Power!

Look at these features:

- Amazing Smoothness! Cushioned Power! Easy to use all day because special rotating balancers geared to crankshaft neutralize vibration.
- Power! Light Weight! Full 7 horsepower, yet weighs only 55 pounds with 20-inch chain and blade.
- Fast Starting! Superhot spark, automatic-rewind starter, push-button primer.
- Easy Operation! Chain oiler and tank built in, controlled from handlebar. Simplified grouped controls—throttle controls and ignition switch on handlebar for fingertip operation.
- Safety! Full automatic centrifugal clutch disengages chain when engine is idling.
- Convenience! Ignition points easily accessible in exterior housing. Full 360° swivel transmission locks at any angle. Floatless carburetor permits full-power sawing in any position.

Try It Yourself... Feel Its Power and Smoothness!

Stop in today and try out the new McCulloch 7-55... with Cushioned Power

Manufactured by McCulloch—World's Largest Builders of Power Chain Saws

## POWER QUIZ

What is a "Voltage Regulator?"

The stoic American Indian, the proud person he is, performed admirably for his tribe... but he could not measure up to the thousands of "silent sentinels" on the Mountain States Power Company system. Our "sentinels" are "voltage regulators." Transformerlike in appearance and construction, they stand next to substation transformers and act automatically to hold the voltage (pressure) constant... keeping up with the customers' continually changing electric requirements.

Voltage regulators are another fine example of the special equipment requiring a big investment to insure the good service which Mountain States Power Company strives to give to its customers.
