## Sportsmanlike DRIVING

### KNOW WHERE TO DRIVE

Traffic lane straddlers are conspicuously out of place. They remind one of the above picture. Being called a "road-hog" isn't the worst thing that can happen to a traffic lane straddler. Sooner or later he causes an accident, says the AAA driver training book, "Sportsmanlike Driving."

Position your car—in the correct lane. Out of lane, you look untrained and ignorant of the simplest driving rules. Drive well within the curb or road-edge lane, unless you in-

tend to pass a slow car or make a left-hand turn.

It is easy to know just where your car belongs if the lane is marked on the road. If the road is unmarked, only that part that makes up your lane—usually a third or a fourth of the road width—belongs to you. Drive as though the lane were marked.

The lane position of your car should always be a correct sign to other drivers of exactly what you intend to do.
