The Debunker

BY JOHN HARVEY FURBAY PH D
EATING CALF BRAINS WON'T MAKE YOU ANY SMARTER

There are many people who buy and eat the brains of various animals, believing that in this way they strengthen their own brain cells. Dr. Donald Laird says of this: "It will not improve your brains one whit, and the idea may ruin your appetite for awhile." This reminds the Debunker of the Leopard Society men he once met in West Africa who ate the hearts of their slain victims, believing that this would make them "strong-hearted" as a result.

The Deanha Parent Teachers association met in the grade school building on last Thursday evening with Mrs. Alfred Cokenour presiding. The meeting was opened with group singing led by Russell Hoyt. Stanley Whipple and Mrs. Al Warby gave short talks on the topic "What is a free world?" Those in attendance were then divided into three discussion groups in which they discussed the lesson topic "Preparing the child for a free world". Each group selected its own discussion leader.
