"No Room at the Inn"- A Christmas Classic Greatest Story Ever Told On Television

The story of The Nativity, as told in "No Room at the Inn," which has become a Christmas tradition in radio through its annual broadcasts on "The Greatest Story Ever Told" program, will be seen on television this Christmas for the first time. The telecast will be on Sunday, December 23, 7:00 to 7:30 p.m. (EST), over the ABC-TV network. The radio program, heard at 5:30 to 6:00 p.m. (EST) on the ABC radio network every Sunday, will air the same story that day.

GOOD HEALTH

Answer to Question No. 1:

It is a disease of the nervous system that often strikes in the early twenties. Its cause is a medical mystery, and there is no known cure. A new organization, the National Multiple Sclerosis Society, is however sponsoring a number of research programs in an effort to unlock the secrets of the disease.

Answer to Question No. 2:

About half the cases recover without any crippling after effects. One patient in four is left with paralysis that requires prolonged medical care. Others have slight after effects that can be helped by physical therapy,

surgery, or simple corrective devices. Extensive research is under way to try to discover the cause or causes of polio. Until more is known, the best hope of avoiding it lies in maintaining good general health.

Answer to Question No. 3:

Some 70 per cent of the body weight is salt water. We become thirsty when we lose enough water through sweat, excretions, or evaporation to upset the water-salt balance, according to one theory. Another view is that the thirst sensation results from drying of the mucous membrane of the throat.
