They "don't like it—nothing but cold, snow and rain—can't understand why anybody wants to live in a heck of a place like this for anyway." Since news of tornados in the south, blizzards, floods, death and destruction, even below zero weather in our own state nearer home, there has been a noticeable change, a clearing of the air. Now it goes, "What's the loss of a few early green onions and heads of lettuce compared to that of lives and homes—taint such a bad place to live after all, this old canyon."
