Dispel Fear

It is noised about that The Enterprise is "black-jacking". The grocery survey is by some so regarded. We contend that a bad state of business affairs has long plagued our community. It is very clear that the people of this city are as fully capable of handling their daily lives as those of any like locality. This is as it should be. Many times the doing of a certain task at a certain time does not happen because of fear. We feel many citizens of this canyon have an extreme case of fear.

The blur of fear that looms in the eyes of those longing for betterment and yet frightened at the prospect of being drawn into giving personal support to a common cause is unhealthy for all of us. As in ages past, in all public matters, possession of the facts stiffens the spine and lends courage to those beset by doubt. The newspaper that supplies these facts only carries out its duty. Often doing this is not rewarding cash-wise. Reward can come from a job well done, however. We have little doubt that there will be a Mill City long after we are gone. Life moves on in its most beautiful and confident manner.

A thought here expressed or a plan advanced stands at bat willing that it be struck out or hit a homer. Only by playing the game to the end can we see what the final score is. This we intend doing.

Bid For Facts

Many disappointing events are being visited upon the peoples of the United States within the past few days. We have very much in the head-lines the "steel situation". One court has ruled one way and the unions have been quick with their reply. Now the matter awaits a higher Court's decision.

In view of the world state of affairs it is not wise at this time that we should dawdle. Korea still is with us. The Reds in Europe are showing willingness for battle tests. Enemy planes severely damaged a commercial airliner, and did so appearently without reason. From Korea, Ridgeway has been taken, and Clark put in his stead. "Ike" leaves his important post for the "states" and his bid for the Presidency.

Just why all this adds up to disappointment is placed in focus when we considered that the more the confusion in the public's mind the greater the danger of a wrong turn in the road to a better world. Most important of all, however, is the ever present need for confidence in our peoples and leaders in their struggle for the general welfare of the world. Our mistrust of some so over-shadows our faith in others that our standards waver in times of trial. We must bid for the facts of each problem.

Editor's Letter Box To the Editor:

I find it very hard to understand the theories which Mrs. Ruth Johnson expounded in last week's Letter to the

Editor. She writes that Elnora Albright is school and college. rather immature in her thinking, but then goes on to say that Abraham in the U.S. until well along in the 19th Lincoln went to a small country school. Therefore, she insinuates, no one needs anything better than Abe Lincoln had-more than one hundred and twenty-five years ago. She says a high school graduate knows less than an eighth grader did in "Abe's' day. "Abe" had only three subjects -reading, writing, and basic arithmetic.

Today's high school student has four years of English, including literature, United States and world history, algebra, trigonometry, chemistry, physics, physical education, etc. The reason, Mrs. Johnson that "Abe' was considered educated without going to high school and college is largely because the greatest percentage of the citizens of that day were completely illiterate.

The argument about sports must be officers, Larry Large was elected pavery confused in Mrs. Johnson's mind trol leader, Mike Peterson was elected sports are a very important form of assistant patrol leader, Tony Boothby recreation and keep both boys and was elected scribe. girls fit to be better men and women "of the future". The girls have an entirely different porgram of sports Scout Circus then about Camp Piothan do the boys.

Mrs. Johnson must indeed be very "small townish"! She says that our humble school of 120 students is a 'big one". It's true that the teachers in Detroit are just as intelligent as day and Tuesday mornings, other teachers. They need equipment The teachers announced Tuesday to effectively put that IQ to work, morning who the first cast players And no one has said, Mrs. Johnson, were for the play: Bob Russell, Doug; that your neighbors aren't as nice as Mike O'Leary, Nick; LaVerne Whaley the next person's neighbors.

I do hope Mrs. Johnson will think Provost, Polly; Ellen Shelton, things over a little before writing any leria; Emma Nicholas, Maude; Eveylr more long letters full of confused Johnston, Wilma; and in the second thoughts and illogical statements. I cast: Dick Crook, Maurie Bassett urge the readers to read Mrs. John- Truman Jones, June Cox, Pat Murray son's letter of last week. Sincerely, Norma Downer, Barbara Podrabsky
