## STOP THIEF!

This spark plug is robbing its owner of gasoline—Yes, a cracked or worn plug, or one that has run more than 10,000 miles, can rob you of one gallon of gasoline of every ten. The "stolen" gasoline escapes through the exhaust or into the crankcase.

Car-Saver Service can protect you against this kind of loss by frequent periodic inspection and replacement of worn plugs. It is just part of the service designed to reduce wear of vital parts and improve gasoline mileage and give smooth engine operation.
