Plentiful cabbage prompts me to remind you of the myriad ways to vary the ever popular cole slaw. Start with grated cabbage, then add crushed pineapple, grated carrot and real mayonnaise. Or chopped onion, green pepper and mustard-with-horseradish and mayonnaise. Or diced apple, celery and mayonnaise.

To '52 brides, a turkish towel placed in the bottom of the sink is good insurance against chipping or breaking your "best" china. A rubber nozzle on the faucet also prevents a good many accidents.

Prepare tender young beets this quick and delicious way. In the bottom of a saucepan place 1-tablespoon vitaminized margarine per serving, top with peeled, diced, raw beets, a sprinkling of salt, pinch of sugar; then tuck wet outer leaves of lettuce or cabbage over beets. Cover and cook gently for 15 or 20 minutes. Beautiful color and marvelous flavor!

If it's time to freshen up your treasured feather pillows, remember to air them thoroughly but not to sun them. Sun causes the feathers' natural oils to dry out and destroys their resiliency.

As a labor-saver make enough pastry dough for two pies. The second part will keep in the refrigerator for several days if wrapped tightly in waxed paper.

I bought a gift in a store the other day and a cute little salesgirl followed me all the way home. I was congratulating myself on still having a romantic appeal until I discovered her finger was tied in my bundle.

"How long have you been married?" I asked one of my Breakfast Club guests recently. "Forty-eight years," replied a white-haired Missouri lady, who then startled me by adding: "It started with romance and ended with rheumatism."

Most surprising answer I ever got to the question, "How do you like going to school?" came from my own young son. "I don't mind the going," Bobbie said. "I don't even mind the coming home. It's those six hours in between that get me down."

Johnny Desmond, our singing star, has a brother with more unusual jobs. His latest, according to Johnny, keeps him busy Saturdays and Sundays as a trimmer in a candle factory. When I asked if he didn't work during the week, Johnny replied: "He only works on wick-ends."

A listener sent me this bit of philosophy: "Marriage entitles a woman to the protection of a strong man—who can steady the ladder for her while she paints the kitchen ceiling."
