KEEPS REPAIR BILLS DOWN

A fan belt with too little tension slips and wears rapidly — may break and leave you stalled. With too much tension, generator bearings can be damaged in a few miles of driving — and a repair bill results. Regular inspection of fan belts is part of our Car-Saver Service.

This is just one way regular Car-Saver Service saves wear of vital parts — improves gasoline mileage and keeps your car free from trouble.

Drive in and let us show you how we can keep your car a better car, longer with Car-Saver Service.

You get **MORE TRUCK FOR THE MONEY** when you buy on the plain hard facts!

Gene Teague Chevrolet

Fact No. 1

Model for model—costs less
Stack up a Chevrolet truck against any other truck with comparable specifications, capable of handling the same payloads. You'll find the Chevrolet truck lists for less and brings you great features.

Fact No. 2

Mile after mile at rock bottom cost
Truck users everywhere have proved that Chevrolet costs the least of all to own and maintain. Valve-in-Head economy, in the Loadmaster or Thriftmaster engines, saves on gas.

Fact No. 3

Right truck for the job saves money
Chevrolet trucks are factory-matched to your payload requirements. You don't waste money by buying "too much truck"—you don't risk work interruption by buying "too little truck."

Fact No. 4

Lower, slower depreciation
Records show that Chevrolet trucks traditionally bring more at resale than any other make which costs about the same new. The market value of Chevrolet trucks stays up because the value stays in.

RUGGED and thrifty, too!
