Women Entertain at Softball Park July 25

Friday, July 25, is going to be Women's Night on the local ball field. Beginning at 7 o'clock the first contest will begin between the Timberettes (18 and under) and the Mill City Women's team. On the same evening following the opener the Mill City Women will play the highly touted Silverton women's softball team.

Proceeds of this evening's play will be divided with the Timberettes to help them purchase uniforms, according to information from Mrs. Russ Kelly, one of the star players on the M. C. Women's team. Every one is invited to come out for an evening of good women's softball under the lights and root for your favorite team.

Recreation Program Gains Popularity

The recreation program began gaining momentum again after being stalled by the heat. The Little League Baseball program is thriving in the cool of the morning and Bob Russell expects to field a team against outside competition Saturday night.

Miss Thomas would like to remind the mothers that the recreation room of the high school offers a cool place for the younger children to spend the afternoons.

Plaster of Paris and clay work is currently holding the center of interest in the arts and crafts program. Ground work is being laid to open a swimming hole in back of the Kelly mill. Those persons interested in this project are urged to contact Russell Kelly or John Muir.

Married Registrants Must Report Status

Oregon State Headquarters, Selective Service System, today called attention to the fact that many registrants appeared to have a misunderstanding as to when the advent of a child becomes a change in marital status and should be reported.

"It seems that most registrants have the idea that the change of marital status," said Col. Francis W. Mason, deputy state director, "doesn't occur, or need to be reported, until a child is born. In reality this change of marital status is effective as soon as it is definitely established that the registrant's wife is pregnant."

Col. Mason went on to explain that Selective Service Regulations do not permit a local board to grant a 3-A classification if the registrant reports the pregnancy of his wife or the actual birth of a child for whom he is maintaining a home after the issue of his Order to Report for Induction.

"It is evident therefore," concluded Col. Mason, "that as soon as a reliable physician can certify that a registrant's wife is pregnant he should immediately file such certificate with his local board. If he waits and in the meantime his Order to Report for Induction is issued, the local board is not permitted to grant a deferment on the grounds of dependency."

held their meeting Tuesday afternoon at the home of Mrs. Albert Julian near Scio. Those attending were Leora Stevens, chairman, and her house guest Mrs. Tallman, Garnett Bassett, Viola Zander, Lois Myers, May Patton, Celene Taylor, and the hostesses.

Mr. and Mrs. William Hargin and children returned home after spending several days in Washington visiting relatives.

FRANK EDWARDS Says:

(Frank Edwards is heard every night, Monday through Friday, on Station KPOJ, Portland, at 10:15 p.m. and every Monday, Wednesday and Friday on Station KORE, Eugene, at 10:15 p.m.)

The 82nd Congress, now adjourned, was dominated by a working coalition of Republicans and Southern Democrats. They did little that was realistic or constructive. They were mostly little men on a big job. Among other things, this was the Congress which gutted the badly-needed price control program. The cost of living has reached the highest point in history and is still rising. When the chips were down, the 82nd Congress placed profits above people.

Knowing that fruits are no longer under control, the coffee industry demanded that coffee be de-controlled because it is a berry. OPS insisted that it is a beverage and produced full-page ads in which the coffee industry called it a beverage. This plan fell through, but it shows how the gougers are working like beavers to reap their harvest of higher prices and higher profits under the phony controls law.

BIG LAUGH OF THE YEAR: The Defense Production Administration says it is not going to give out any more tax write-off certificates. Which

means that after DPA has handed out more than \$20 billion worth of tax reductions to corporations, it is going to get squeamish about what little remains to be given away.

Gov. James Byrnes of South Carolina has said that if the coming Democratic convention at Chicago refuses to seat the anti-Administration delegates, he will walk out. This is the best offer Governor Byrnes has made in a long time.

What gives Olympia rare flavor?

Centuries of brewing experience have shown that certain waters have a more solvent quality than others to extract rare and desirable flavors from the hops and grains, and impart them to the beer. Our subterranean water proves how this faultless brewing water produces an outstanding beer.

Special Announcement

We have added another pharmacy to "The Quisenberry Pharmacies, that operate as one"

130 S. Liberty St., Salem

The new pharmacy will be open until 11:00 o'clock at night on week days and from 12:00 noon until 2:00 P.M. and 6:00 until 9:00 in the evenings on all Sundays and all holidays.

There we will specialize in prescriptions and stock will be limited to medicines and sick room supplies.

Your prescriptions will be on file there as well as at the other locations and will be available, for your convenience, these longer hours.

The new location is 130 South Liberty Street, and the phone number is 4-3336. However, if you dial the Court Street number, 3-9123, and that store is closed, the call will be relayed.

We are pleased to be able to offer this kind of prescription service and to have it available these longer hours.
