## Knowledge is Power

1. ARE YOU AS YOUNG AS YOU FEEL?

2. WHEN WAS THE FIRST AIR MAIL DELIVERED?

3. WHAT CAUSES ACHING FEET?

(1) Yes, says Dr. Peter J. Steincrohn in his book, "How to Stop Killing Yourself." You would have to be a dyed-in-the-wool philosopher, comments the writer, to accept the onrushing years without any feelings of regret. To experience such feelings is normal. However, the more we can disregard the passing days, the more we shall get out of life in contentment and pleasure. "We go about partially killing ourselves when we lose the present by worrying about the irretrievable past and the unpredictable future."

(2) On May 15, 1918, reports Captain Benjamin B. Lipsner in his book, "The Airmail: Jennies to Jets." Captain Lipsner recalls that President Wilson and an official party were on hand at the Washington polo grounds, but the crew couldn't get the Jenny plane started.

The gas gauge showed a full tank, but a check with a stick revealed that the plane's tank was empty. After a hurried transfer of gas the plane got under way. Then, because of compass trouble, the pilot headed for Maryland instead of Philadelphia. Fortunately another flight from

New York to Washington by way of Philadelphia was completed that day and the first air mail was delivered as predicted.

(3) Poorly-fitted shoes are one of the main causes of aching feet, explains J. V. McLaren in the "Catholic Digest." The fact that women persist in wearing high heels probably accounts for so much of their foot trouble. Foot clinics report three times as many women patients as men.

Calluses, corns, bunions, and more serious troubles are born in the vanity of women or men who insist on smaller sizes than they obviously need. Shoes that are too large produce friction; tight shoes pinch. They have to be just the right size. Chiropodists advise you to alternate wearing various styles of footwear.
