

OUT OF GODFREY'S TEABAG

I understand that if the weather doesn't straighten out soon the President's going to step in and seize the Weather Bureau.

In New York they have a new tax on liquor and a new tax on automobiles. One guy hiccuped: "I'll jush have to give up drivin', tha'sh all."

Well, they finally selected Miss Universe. As far as I can see, the world is in pretty good shape.

New Yorkers are having trouble with natural gas. Some of the meters went haywire—some are running fast, some slow. But just be patient—the gas company'll be right out to fix those that are running slow.

You know, the Russians are always taking credit for our modern inventions. Now they say they drilled the first oil well. I wouldn't know—but I will give them credit for natural gas.

The whole world has gone topsy-turvy: in Los Angeles a pedestrian ran into a taxicab—in St. Louis the monkeys are throwing peanuts back to the people. Next thing you know England will be offering to lend money to the United States.
