Editor's Letter Box--

(Continued from Page 2)
former Idanha Power company is just indulging in a big loud guffaw! Respectfully, ALICE R. MOORE.

To the Editor:
Mr. Dick Turpin, in his letter in your paper, says that the Democrats lost the election because it happened to be the Republicans' time to win.

I think the reasons for the Republican victory are deeper than that. The MAIN reason that Eisenhower won is that he proposed to go to Korea, giving the voters the false hope that by so doing, he could end the war there. By so doing, he appealed to the most vital feelings of all Americans, their heartfelt desires for peace. I don't believe Mr. Eisenhower wants to or can stop this senseless war. Rather, I feel that the danger of a major conflict is now greater than it has ever been.

It is up to all of us, those who voted Democratic or Republican or any other way, to let Mr. Eisenhower know that we want peace. We can have it tomorrow. The only issue holding it up is the disagreement on the exchange of prisoners. Why not end the fighting and killing immediately and then try to find an equitable solution to this matter. Sincerely, RUTH STOVALL, Rte. 4, The Dalles.

To the Editor:
The regular annual election of the City of Mill City, Oregon, will be held on Tuesday, December 2, 1952, from 8:00 A.M. to 8:00 P.M., at the City Hall and the following measures will appear on the ballot for the approval or disapproval of the voters.

1. Arlo Tuers and D. B. Hill, Jr. have been prevailed upon to accept nominations for offices of councilmen and two men must be elected to fill the vacancies of the two whose terms of office have expired. Vote for two councilmen.

2. The city council of Mill City feels the necessity of submitting to the voters at this election the possibilities of a bond issue to cover a drainage system and street improvements for the city. This action was taken in response to many requests and complaints on the present conditions of our streets.

The bond issue as set forth on the ballot solicits approval for a bond issue of general obligation serial bonds in amount of \$75,000.00 to be retired over a period of 15 years at a rate of interest not to exceed 4%. However, the council has outlined a program in which only \$40,000.00 of the bonds would be issued the first;

this amount would cover a complete drainage system for the entire town as estimated in the bid prepared by our city engineer, N. W. Haner of Portland. The drainage project would be speedily constructed since it would be impractical and useless to pave and repair our streets until present flooding conditions are controlled. With regard to the \$35,000.00 balance of the bond issue, only the actual amount necessary for preparing the city streets for paving would be issued, probably the third or fourth year later. It is also possible that no further sale of bonds would be needed since the council intends to continue the practice of proportionate sharing of costs of street repairs with the property owners which has been satisfactory in the past.

The Linn County Assessor's office in Albany advises that the sale of these bonds as set forth above, considering issuance of \$40,000.00 payable over 15 years at not over 4% interest, would increase our property taxes approximately 0.8 mills or \$0.80 per \$100.00 assessed valuation; whereas issuance of the entire \$75,000.00 would increase taxes approximately 1.5 mills or \$1.50 per \$100.00 valuation. Each year thereafter the millage would lessen somewhat due to decreased interest payments.

The council asks that you consider this problem and convey your interest to friends and neighbors. It is only through the co-operation of all people concerned that any city project can work satisfactorily. Vote yes or no on this measure.

3. At the November 4 general election the city council submitted two proposed charter amendments to the voters. These amendments were meant to be in opposition to each other and the passage of only one was required. However, due to the

manner in which they were presented and too little explanation on the subject, many people have advised that the ballot was confusing and misleading and that they did not have a full realization of the matter in question. For this reason, the council felt that the only fair procedure to obtain the true choice of the voters was to place the proposals on the ballot again at our general city election.

In explanation of the two measures, the one was submitted through an initiative petition signed by many voters and it requests that the city charter be amended to make the offices of mayor, recorder-treasurer, and municipal judge be elective offices for two year terms and to require all candidates for all offices to be property owners and taxpayers. The reasons for this proposal are evident, the people wish to elect all the city's office holders.

After consideration, the council proposed the other amendment which requests that the mayor only be elected for a two-year term, and gave several reasons for their action. They agreed that it is reasonable for the mayor to be elected since he is the official who contacts the public and so should have the public approval. However, they feel that it is not practical for the recorder and judge to be put into office by a popularity vote. These positions require certain training and study and should remain appointive so that persons

capable of doing the work and willing to accept and fulfill instructions could be obtained. Also, it is almost impossible to persuade men to be candidates for the city's offices. With reference to the qualifications of candidates for city offices, our city charter now requires that each person must be a qualified voter under state laws and must have resided in the city one year immediately preceding the election in order to be eligible to fill an elective office of the city. This ruling is as prescribed by state laws and the council feels that it is sufficient and sees no particular reason for changing it.

In voting on these two proposed amendments, vote yes on one measure and no on the other, then the one receiving the majority affirmative votes will be adopted.

You always get a
Better Deal
and a
Better Buy

WITH CHEVROLET TRUCKS!

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

YOU LOCAL CHEVROLET DEALER

Gene Teague Chevrolet

Chevrolet Sales and Service

STAYTON, OREGON

A better deal because . . .
Every Chevrolet truck is factory-matched to the job—with the right power, the right capacity, right engine, transmission, springs, axle, and tires to do its work at the lowest possible cost.
Come in and see for yourself what a wonderful deal you'll get with a great new Chevrolet truck.

A better buy because . . .
THEY LIST FOR LESS
Production economies, possible because Chevrolet is the world's largest truck manufacturer, let Chevrolet trucks list for less than comparable models of any other make.
LOWER OPERATION AND MAINTENANCE COST
Valve-in-Head engine design; strong and sturdy Hypoid rear axles; Flexi-Mounted cabs; rigid, channel-type frames; single-unit rear axle housings; Unit-Design bodies and many, many other features reduce costs and increase the life of your Chevrolet Advance-Design trucks.
TRADITIONALLY HIGHER TRADE-IN
Chevrolet trucks keep their value longer—proof of the greater value built into Chevrolet trucks and a wonderful plus at trade-in time.
