**The Debunker**  
BY JOHN HARVEY FURBAY PH.D.

When I was a child, I was told that turning the hands backwards on a clock would ruin the clock. One day, when no one was at home, I tried it, and to my surprise, the clock seemed not to mind it at all. Later a jeweler and clockmaker told me that there was nothing to the idea about turning the hands backwards. I have questioned other watchmakers since then and they all have told me the same thing. Clocks which strike are exceptions.
