

Boy Scout Council Meets in Salem

S. T. Moore of Detroit attended the Cascade area council of Boy Scouts of America in Salem last Thursday. Moore represented the upper North Santiam portion of the Calapooya district.

Bill McKinney, Salem, Jamboree chairman reported on the 1953 Jamboree. This will be a highlight in the life of every Scout going; 152 Scouts and leaders may go from this council. Scouts should get their applications in early.

Lew Amort, Salem, camping and activities chairman pointed out the serious need for camp development. President Thompson and Bill Phillips, Salem, presented the financial picture to the board; and pointed out the need for additional funds. The 1953 budget is short due to the failure of the Community Chest to provide adequate budget requests.

He pointed out that Lebanon had done a consistently fine job. Means were discussed to improve office arrangements so that the professional staff could be of more service to their respective districts. He pointed out that the staff was extended to its limits, and that additional help would be needed for continued growth.

"Scouting is important to us in the development of boys with ideals and good citizenship. We need the full co-operation of everyone," Thompson said. Thirty-six board members attended.

Missing Model

There is a national hunt on for old models like this—the motor not the girl. Johnson Motors of Waukegan, Ill., is offering brand-new 1953 motors in exchange for the 10 oldest Johnsons they can locate. They will be displayed this year when the company becomes the first firm to make a million outboards. The first motors were produced in 1922 and the serial numbers started with "A-501." However, they say numbers in the low thousands may well win as they are also offering 40 merchandise prizes for the oldest models reported to the company or its dealers before Christmas.

MEHAMA

The Mehama local of the Farmers Union held its Christmas party at the Women's clubhouse Friday evening, December 12, with a very good attendance reported. IT'S AMAZING!

Smart, sleek lines accentuated by new jet-tube taillights and a new chrome molding through the center of the rear fender line are featured in the 1953 Ford Customline Fordor sedan. Outstanding mechanical feature is a new "miracle ride" which brings to the high volume field for the first time the smooth riding characteristics of heavier, costlier cars.
