Cookie Sale Begins At Detroit-Idanha

Detroit — The annual cookie sale sponsored by the Girl Scouts and Brownie Scouts began in Idanha and Detroit this week.

Each troop member will contact friends and neighbors in her home vicinity.

The profit of nine cents per box sold will be used by the troops for operating expenses.

Detroit-Idanha Girl Scout and Brownie leaders and troop committee members met Thursday, Feb. 19, in Detroit with Miss Dorothy Wilson, Girl Scout field director from the Albany office.

The consultation was held to assist scout workers in this area with their problems.

Scout and Brownie troops joined the group to view films on scouting, "Let's Go Camping" and "The Growing Years", both of which are available at the Albany office. A color

film on "Our National Forests" was also shown.

Recently appointed troop committee members for Mrs. Helen Baughn's scout troop are Mrs. Opal Leming, Mrs. Bernadine Stoll and Mrs. Floy Storey, all members of the Idanha American Legion Auxiliary which sponsors the troop.

Mill City Grade School NEWS

I saw my brother last week. (He is in the school for the deaf). We went to the movies.

LLOYD BURKS, Grade 2

I am new here. I like Mill City. The children are good to me. Valerei had a birthday. There is another new boy too. Danny is moving away. I wish Danny good luck.

My name is GARY WHITSETT, Grade 2

Jean brought a rock for the science table. Danny is going to move to Redmond from Mill City grade school. Patsy Kelly is going to move too. We will miss them a lot.

JEAN GLUNZ, Grade 2

I brought a green rock. We are happy that we have our two new boys.

Shirley won out in our word contest.

DIANA LOUISE MINTON, Grade 2

Mill City won the basketball tournament.

THERE'S NO SUCH THING AS AN "AIR-POCKET"

Captain Eddie Rickenbacker, noted flier, says there's no such thing as an air pocket or partial vacuum in the sky, as plane passengers believe. There are only currents of air, some upward, some downward, depending on the winds, etc. The so-called air pocket is merely a descending air current of good solid air—the same that, if it were ascending, would be called a "bump." Plane passengers will have to revise their terminology, for talking of "air pockets" is only a sign of ignorance these days.

The shortest and surest way to live with honor in the world, is to be in reality what we would appear to be. —Socrates.

1953 Chevrolet Advance-Design Trucks are more truck for the money!

4 powerful reasons why you get more of what you want...

- more engine power
- more staying power
- more braking power
- more economy

Advanced Loadmaster engine — standard on 5000, 6000 Series and forward-control models, optional on 4000 Series heavy-duty trucks.

Heavier, stronger, more durable frames increase rigidity, add to ruggedness and stamina of 1953 Chevrolet trucks.

Trucks up to 4000 Series heavy-duty models have "Torque-Action" brakes. Series 4000 and above use "Torque-Action" brakes in front, "Twin-Action" in rear.

New stamina plus extra gasoline economy in heavy-duty models with Loadmaster engine, reduces hauling costs per ton-mile.

(Continuation of standard equipment and trim illustrated is dependent on availability of material.)
