indebtedness it had succeeded in bringing its rate down to .85¢ per kwh. All this time it had paid into its city treasury sizeable sums in lieu of taxes, until today it is owned by the progressive citizens of that community. Now just what could be any better than that situation where the people own its power plant—it isn't much different than a private power company with a thousand stockholders owning it, except that a public power company works for the benefit of the people (its owners).

Customs may differ among the races and may change with the times, but certain institutions in human life have remained constant through the centuries. One of these is Motherhood.

Progress has given Mother new methods and new equipment for her age-old responsibilities. But the love and understanding which are the heart of Motherhood have never depended on science for their expression.

One unchanging sphere of material responsibility has been the religious development of children. From primitive tribal religions up to Christianity, mothers have guided and encouraged the growth of each successive generation in spiritual faith.

The Christian Church salutes all faithful mothers. They have led their families to an ever deepening realization of the sacred bond which unites the Church and the Home in a common devotion to Jesus Christ.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For the children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
