The regular meeting of the Gates Woman's club scheduled to meet on Thursday evening, October 8, has been postponed until a later date in the month. The election of a vice president will be held, to fill the unexpired term of Mrs. George Bailey, who has moved away.

Lt. and Mrs. Donald Witzel, just returned from Japan, where Lt. Witzel was in service, are house guests at the Kenneth Martig home. Mrs. Whitel and Mrs. Hartig are girlhood friends. At the end of his furlough Lt. Whitel will report for duty at Fort Leavenworth, Kansas, where he expects to be stationed for six months.

Mrs. Roy Taylor, who spent the past week at the home of her daughter, Mrs. Glen Hennessy, to be near her sister-in-law, Mrs. Clarence Johnson, returned to her home in Dallas Saturday. Mr. and Mrs. Hennessy accompanied her as far as Salem.

Mrs. Martha Bowes is on crutches again, the result of a fall at her home Friday morning. While out in her yard she stepped into a hole and sustained a badly sprained ankle.

Judy Kadine, daughter of Mr. and Mrs. Edwin Kadine, was 11 years old Friday, October 9. A group of her little friends and relatives gathered at her home Friday evening to help her, with the aid of a beautifully decorated birthday cake and many lovely gifts, to celebrate the occasion.

Mrs. Emil Johnson, who about a month ago, had the misfortune to fall at her home breaking one arm and shattering a kneecap, is convalescent at her home with her arm and one leg in casts. AID WHEN NEEDED

Residents up and down the Canyon and as far away as Scio and Sublimity have done a mammoth job during the past week in their search for Clarence D. Johnson, Gates resident who had been missing since October 2nd, when he went into the woods to find a good hunting place. The area since that time has been combed by high school students from Gates, Mill City, Stayton, Scio and Sublimity, also many men from those areas also. State police, men, horses and dogs were called in to help in the search. Under the direction of Bill Stewart, Sr., of Scio, men had come in large numbers to help out.

Individuals and merchants of the various towns have been generous in their donations towards food to help feed the many people engaged in the hunt. Women of the area aided in preparing the food and serving it to the men.

Much credit is due each and every one who had a part in this intensive search, and in the world today where there is so much greed and strife, it does one good to see that people can get together in a common cause and work with one another harmoniously. Let us all hope that such a search will never be necessary again, but it is a good feeling to know that in this area there are men and women who are willing to help one another in a time of need.

Anniversary and a group of relatives and friends from Salem arrived at her home bringing gifts and birthday "goodies" to help her celebrate the occasion, a complete surprise to Mrs. Haywood and her family. Those complimenting her were Mr. and Mrs. C. A. Beach, Mr. and Mrs. Edward Staton and son, Mr. and Mrs. John Cook and family, Mr. and Mrs. Bob Emanuel and family, Roy Beach and Frank Baechlen.

Monday afternoon, Mrs. Haywood was again surprised and honored when several of her friends gathered at her home in observance of the day. Following the opening of the gifts and refreshments the afternoon was spent at cards. Present were the honored guest, Mrs. Haywood, Mrs. George Clise, Mrs. Bert Vanderhoff, Mrs. B. Graunke, all of Gates, Mrs. Beverly Humphrey and Mrs. Marge Dette, both from Mill City.

Planning ahead is the quality which sets human beings apart from animals. In which category do you fall?

Friday, October 9 at 7:30 the Senior class gave a party for the whole school. The entertainment was dancing. During the dancing they traded off with mixers. About half way through the evening refreshments of cake and punch were served. The party, being a big success ended at 11:30.

Tuesday, October 13 the GAA initiated the girls that are new in GAA. They had to wear three ribbons in their hair and no make-up and no jewelry. They could not talk to boys all day long. At 7 p.m. there was a party at which all the new girls either had to wear something funny or do something funny in front of the rest of the GAA girls.

Friday, Oct. 16 is Freshman initiation. The people of the town will see all kinds of funny styles then.

The human body will stand so much and no more; young people should learn not to abuse their strength if they want to live long.

National Doughnut Month

Here are a few interesting facts about doughnuts which we thought would be of interest to you.

It has been established that an average man can walk to the top of the Woodworth Building merely on the energy supplied by one single doughnut.

Estimates disclosed that if all the doughnuts eaten in the USA annually were placed end to end, they would reach from N. Y. to San Francisco. Enough doughnuts are manufactured in the USA annually to supply four doughnuts to every inhabitant on earth.

Doughnuts made by the ancient Oklahoma Indians hundreds of years ago have been found in caves in that state.

During a charity fund raising campaign, the street signs on Times Square, N. Y., were changed to Doughnut Square.

Don't touch that wire!

Hanging wires are not always "dead" wires. You can't tell the difference by looking . . . and it may be dangerous to touch one. Falling trees, ice formations, wind storms, or snow sometimes break power lines and leave wires hanging. If you find one of our wires in this condition, we'd appreciate your calling us. We'll take care of it safely and quickly.

AN EXPERIMENT IN RELIGION

We met a chemist some years ago who was planning to experiment with religion.

"Some Sunday," he said, "I'm going to go to Church and see if it makes any difference in my life."

"Doctor," we asked (for he had a number of degrees), "How does a chemist begin his experiments in a new field?"

"With research," came the reply. "He studies the findings of other men in that field—determines what has been proven—what is unknown."

"That's a good way to begin your experiment with religion," we suggested. "It would hardly be 'scientific' to judge Christianity, or your need for it, on the basis of one visit to Church. But a few months of faithful attendance, and many thoughtful evenings with the Bible will give you a clear understanding of what others have found in Christianity. You'll discover spiritual truths which centuries of experience have proven, and gain a faith that can bridge the Unknown."

At last report, our chemist was making fine progress in his experiment. In fact, he no longer thinks of his religion as experimental!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
