The subject of the Lesson Sermon read in all Christian Science churches on Sunday, October 18, was "Doctrine of Atonement." The citation from the Bible (I John 2:1, 2), "And if any man sin, we have an advocate with the Father, Jesus Christ the righteous; and he is the propitiation for our sins: and not for ours only, but for the sins of the whole world, brings comforting assurance and points the way to true atonement.

The correlative passage from the Christian Science textbook, "Science uses" by Mary Baker Eddy (p. 473), "Christ came to destroy the belief in sin and through Christian Science and attributes all power to God," sets further enlightenment to this important subject.

The man who marries in haste very rarely has enough leisure in which to repent.

Last Friday the Freshmen had their initiation. The styles were anything from barrels and boxes to swimming suits and diapers. Many of the kids were beyond recognition. The face paint was anything from white to black make-up. In the afternoon from 2:55 to 3:45 the Freshmen put on stage acts. Some people had to dance and some had to sing. One of the boys had to take a girld off one of the girls. Another girl had to put one on while a boy sang to her. It was all very good. At the last, all the Freshmen got onto the stage and knelt and said their little piece. They were then officially in the student body of Mill City High.

Friday night we won our first football game of the season. The score was 12 for Mill City to 6 for Chemawa.

The Junior class is high in magazine sales. The Timberwolves will go to Scio this Friday for a game at 2 p. m.

Pointers Given About Estray Animal Law

The Oregon state department of agriculture is calling attention of property owners or operators that Oregon law establishes the manner in which estrayed animals shall be handled.

Within five days of the appearance of an estray, the department must be notified in writing, the notice to be sent to the department in Salem. The department is charged with trying to establish identity, through its brand records, of animals that have strayed. Failing this, the department publishes notice of the taking of an estray and date and time for sale at public auction.

Ranchers or others taking up estrays have no legal authority to advertise this fact, but instead should notify the department within the five-day period.

Also, some confusion exists as to what an estray is. To quote the law, an estray is, any bovine animal, horse or mule of any unknown owner unlawfully running at large or lawfully running at large trespassing within a legal enclosure." An animal running at large is not legally an estray unless it is picked up in a livestock control district. And the law further stipulates that from April through November, no estray may be taken up unless it is unlawfully running at large.

From a practical standpoint, then, where there is a livestock control district any animal of unknown ownership is an estray at any time. But where there is no such control district, only from December through March may such an animal be considered an estray.

the doctor can wait

How OFTEN have you heard it said, "I've paid all my bills except the doctor's. He can wait"?

When we have recovered, the fearful urgency of that night call is easily forgotten. In answer to our frantic call, what if the doctor had said, "Oh, it's nothing serious. Wait until morning and come down to the office." The chances are we would agree to pay double if he would come at once.

Health is not an item for trade and barter. In fact, the only wealth is health. Consider your doctor bill as your best investment in the continued enjoyment of life. As pharmacists, we stand ready to fill your prescriptions at a moment's notice.
