From where I sit... by Joe Marsh

**Open Even When He's Closed**

Must have been daydreaming on my way to a meeting down in Centerville the other night. My car ran dry before I thought to look at the gas gauge, but I managed to coast into a gas station—and found it closed!

Well, I thought my plans were ruined for sure until I noticed a gasoline can with a sign: "This is emergency gas. Just help yourself and leave the can with \$1.00. Thanks."

Got started, made the meeting on time, and had enough gas to

get back home again—thanks to a trusting friend.

From where I sit, folks who trust their neighbors make the world a better place to live in. For instance, letting a friend express his personal preferences, is one way of trusting your neighbor. Sometimes I prefer a temperate glass of beer in the evening but I'll always ask what you'd like before I pour yours.
