From where I sit... by Joe Marsh

Wish I'd Said That

You know Miss Perkins. Well, she's been driving her own car around our town for a little more than 30 years.

The other day she had a bit of trouble parking down on Main Street. Didn't quite make it the first try, so she pulled out to start over when a fellow waiting to pass started tooting his horn impatiently.

On the second try, she was still having a little difficulty and so this smart aleck hollered, "Lady, do you know how to drive?" "Yes, young man," Miss Perkins answered,

"I do. But I don't have time to teach you now."

From where I sit, it's not always easy to have a good answer ready when you need it. But when somebody insists that I vote for his candidate, for instance, or choose tea instead of a temperate glass of beer with dinner, I know the answer. It's all a matter of personal preference . . . and none of us like "backseat driving" from anybody.
