## MORE JOBS FROM LUMBER ADVERTISING

Governor Paul Patterson praised the lumber industry for its outstanding job of national advertising and promotion which won the coveted Mac Wilkins Memorial award given annually by the Oregon Advertising Club for the best national advertising program. Here the governor looks at one of the full-color advertisements which appear regularly in leading national magazines. Looking on is Robert Mahaffay, advertising and promotion manager of the West Coast Lumbermen's Association which conducts the nation-wide promotion campaign. Patterson said this hard-hitting advertising helps make secure jobs of 175,000 northwest timber products workers and stabilizes the region's economy.

## Ford Six and Fordomatic

A FORDOMATIC FORD IS AUTOMATICALLY  
WORTH MORE WHEN YOU BUY IT  
... WHEN YOU SELL IT, TOO!

The new Ford 115-h.p. I-block Six whisks you along silently, smoothly, economically. Its deep-block build provides rigid crankshaft support for smoother, quieter operation. Low-friction design and high-turbulence combustion chambers mean more miles from less gas. And, thanks to the Six's higher compression and increased displacement, you get extra "GO" power at all speeds!

Fordomatic Drive shifts for you more smoothly than you could do it yourself. It's the only "automatic" in Ford's field to combine a fluid torque converter and an automatic intermediate gear. Should you ever need an extra burst of speed for passing or hill-climbing Fordomatic's intermediate gear takes over automatically when you step down on the accelerator.

You get a double-value power package when you buy a '54 Ford with the new I-block Six and versatile Fordomatic Drive.

This brilliant Ford engine-transmission combination brings you all the smoothness and flexibility of the finest no-shift driving combined with the extra economy that's built into the industry's most modern,

short-stroke, overhead-valve Six. And, of course, you get the smooth, level riding comfort, the easier handling of Ford's Ball-Joint Front Suspension, a feature exclusive to Ford in its field.

Remember, too, a Ford Six with Fordomatic Drive is automatically worth more when it comes time for you to sell!
