Here's the Quickest, Easiest APPLE CRISP
You Ever Made . . . And the Best Tasting One!

Dish up this Apple Crisp as the grand finale to a winter's day meal, and it will do your heart good to see how much the family enjoys it. Such lovely tasting plump apple slices and rich juice under a crumbly, cinnamon-y topping . . . it smells and looks delicious, too!

This is the quickest, easiest Crisp to make because it calls for canned apple slices. That saves the chore of peeling, coring and slicing apples. And it's the best tasting Apple Crisp for the same reason . . . only the finest of tangy "cooking" apples are sliced and put up in cans. They come out of the can firm, well shaped, full of flavor and juice, all ready for pies, relishes and desserts such as this Apple Crisp.

Apple Crisp

2½ cups (1 can) sliced apples
1 tablespoon lemon juice
¾ cup all-purpose flour
¾ cup brown sugar
¼ teaspoon salt
¾ teaspoon cinnamon
6 tablespoons butter

Place apples in 9"x9"x2" pan, reserving several for garnish; sprinkle with lemon juice. Combine flour, brown sugar, salt and cinnamon. Cut in butter with two knives or pastry blender. Sprinkle on apples. Garnish with remaining apple slices and maraschino cherry. Bake in moderately hot oven, 375° F., 30 minutes, or until crumbs are light brown. Serve hot or cold with or without cream. Yields 6 servings.

OVER THE FALLS

By Mrs. Vera Hathaway
Over the falls the river goes;
Over the falls, on to the deep,
Down, down the mountain swift it
flows;
Never a rest, never a sleep.

Petals of roses in a whirling pool,
Wing of a butterfly tricked in flight;
Down in a mesh of liquid cool,
Webbed in a snare of dancing light.

Over the cliff the river breaks;
Thunders to mist on a jagged rock;
Swirling to foam its toll it takes
Piling its loot on the turtles dock.

Flash of a rainbow jumping clear;
Mirrored duck as he wings the sky,
Water and bird song drench the ear;
Swiftly the river wanders by.

Over the falls the river goes;
Over the falls, to the wild sea,
Wide is the valley in repose
River and tide join silently.

vice president in charge of American Can Company's Pacific division. "Oregon produced about nine per cent of all the vegetables grown in the Western states for processing." Oregon in 1953 ranked second among the states as a producer of snap beans for processing. It harvested more than 18 percent of the nation's total crop.

Cost of Vandalism in State Parks Runs High

Vandalism in Oregon State Parks and along Oregon highways cost the state \$2,076 in 1953, the Oregon State Highway commission was informed at its last regular meeting in Portland.

In state parks one of the most expensive items vandalized was shelters, costing \$1,226 last year. In some cases roofs torn off, windows broken out, and walls defaced by writing and carvings.

Most expensive item on the list of highway vandalism was the cost to repair and replace signs, signals, electric fixtures and sign posts. This item cost the highway department \$17,365 in 1953. Most of the damage was done by deliberate shooting, breaking or defacing this expensive highway equipment.

Other examples of vandalism in the State Parks include the defacement and cutting of tables and benches. At Harris Beach State Park, for instance, six portable tables were thrown over the bluff onto the beach twice and and nearly completely demolished. The replacements were firmly secured to the ground so they could not be moved. Other types of damage was to benches torn up and thrown from location along the trails down steep banks and tables chopped up for firewood.

Though vandalism is a continuous and vexing problem to highway department crews, the cost of highway vandalism throughout the state is estimated to be quite small and measures are being taken to reduce it even even more, according to highway department officials.

State's Farmers Get Over \$15 Million from Processors

Oregon farmers received last year about \$15,000,000 for vegetables sold to canners and freezers—giving the state second place in the west as a producer of vegetables for processing.

"This income resulted from the harvesting of almost 216,000 tons of vegetables for the canning and freezing industries," explained C. W. Roberts,
