Small Fry Enjoy Drive to Newport From Long Beach

The following is a condensation of a motorlog appearing in the NORTHWEST note magazine, June 4 Sunday Oregonian. It is one of an annual series sponsored jointly by the Oregon State Motor association and The Oregonian.

BY AL MCCREADY

A week's motor trip with three small children? Just the thought is enough to give mama the moonies and make papa reach for his ulcer pills.

Life can be rugged on the road with little ones, as every parent knows. But it can be restful and relaxing, too, if careful planning goes into preparations for the junket.

We rolled out of Portland in the Oregon State Motor association's white travel car to find out how to take a touring trip where everyone, from the 2-year-old on up, would have a good time. The first question of course, was where to go? We decided there would be more to do and see, kid-wise, at the beach, so we headed west.

There are plenty of recreational possibilities, we discovered, along the coast from Washington's North Beach peninsula down to Oregon's Newport. We dug clams and tried 'em, hunted agates, collected driftwood, went horseback riding, visited colorful marine gardens at low tide, fed the seals at Seaside's aquarium, rode the Astoria ferry, visited oyster packing and cheese manufacturing plants and climbed the 114 steps to the top of Yaquina bay lighthouse.

Picnics Popular

What about the problems of food, clothing and naps? We knew the risks of trying to eat in restaurants with our trio of tumboys, aged 2, 4 and 6. So we avoided mealtime melées by fixing sandwiches and having roadside picnics at noon. We tried to do our driving in the morning, and stop in the early afternoon at family-style motels with kitchen accommodations.

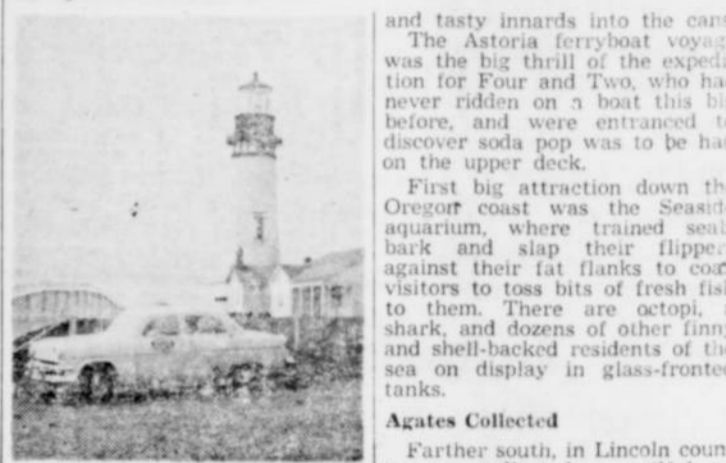

We tackled the laundry problem by outfitting the girls with washable coveralls. They weren't very feminine, but they were washable, took no ironing, and kept little arms and legs warm when the nippy ocean breezes howled.

It's a good idea, we discovered, to do your traveling in short stretches. Otherwise the little ones get bored and fussy. Fifty miles between stops is a maximum if you want to maintain domestic tranquility.

We learned, too, that our ideas on what would be fun for the kids didn't always jibe with their

ideas. We thought, for instance, they'd enjoy digging razor clams. They didn't. Ages Two and Four decided it was too wet and cold out there on the sandbars in the foggy dawns when clam tides always seem to occur. And Six, when she spotted the wreck of an old sailing ship, lost all interest in clams and started excavating for pirate treasure.

The kids had fun, though, at the driftwood cove between Peacock Spit and Cape Disappointment lighthouse. Sun-bleached bits of wave-worn wood made fine teeter totters and forts for a happy hour of play while Mom and Pop hunted up some grotesque driftwood shapes for the mantel.

They enjoyed the visit to a Willapa bay oyster cannery, where the big-muscled mollusks and have to be squirted with steam before workers can pry apart their shells and pop their plump

and tasty innards into the cans. The Astoria ferryboat voyage was the big thrill of the expedition for Four and Two, who had never ridden on a boat this big before, and were entranced to discover soda pop was to be had on the upper deck.

First big attraction down the Oregon coast was the Seaside aquarium, where trained seals bark and slap their flippers against their fat flanks to coax visitors to toss bits of fresh fish to them. There are octopi, a shark, and dozens of other finny and shell-backed residents of the sea on display in glass-fronted tanks.

Agates Collected

Farther south, in Lincoln county, we collected a palatial of pretty rocks on Agate beach, and some of them were sure-enough agates. And we climbed to the top of 83-year-old Yaquina lighthouse to see the lamp shine seaward through glass prisms of such power that the lens must be draped with cloth on summer days to keep it from focusing the sun's rays on the ground and starting grass fires.

Picking the right places to stay, we found, can do a lot to help keep the little ones contented. Our youngsters fell in love with the flocks of ducks on the pond at Stacey's Sunset View court at Ocean Park, Wash.

There's easy access here to nature's longest natural speedway, the 28-mile stretch of table-smooth, hard-packed sand that provides a real motorizing thrill at low tide. The speed limit's only 35 miles, though, so hot rodders may as well look elsewhere.

Razor clams are big and plentiful at Ocean Park, and there are interesting remains of old shipwrecks visible in the sand at low tide.

Washington, Mr. and Mrs. Vernon Olson, Claudia and Ginger of Portland, were weekend guests at the home of Mr. and Mrs. Alwood Aronson.

Mr. and Mrs. Joe Johnson, Claudia, Frankie and Brenda, spent the Memorial day weekend in Ashland where they were guests of relatives. Miss Gerry Cruson accompanied them, and visited friends there.

Mr. and Mrs. Sam Bridges, Pauline, Deo, Buddy, Johnny and Zoann spent the weekend with relatives in Eugene.

A family gathering was held at the Bert Lyons home Sunday. Present were Mrs. Roxie Trask and Uncle Amos Vass of Salem; Mr. and Mrs. Byron Bennett, Martin, and Greg and Mrs. Nannie Martin of Coquille; Mr. and Mrs. Harold Hassler and Denny of Portland; Mr. and Mrs. Bob Fulham and Ronald of McMinnville, Mrs. Walter Bennett of Springfield, Mr. and Mrs. Clyde Lewis, Miss Beulah Lewis, Mrs. Fred Lindeman, Richard and Linda of Lyons and Christy Lewis of Mehama.

A large group from Lyons attended the graduation exercises of the Stayton high school held Friday evening, May 28. Eight students from Lyons were among the class. Those receiving diplomas were: Jean Pietrok; Donna Peabody, Nova Ann Gerath, Pauline Schewiek, Pauline Bridges, Cecil Bassett, Donald Olmstead and Irvin Thompson.

A picture film, "The Conversion of Saul," will be shown Friday evening, June 4 at the Santiam Chapel. All are welcome.

John McClurg is confined to the Salem Memorial hospital in a serious condition, suffering with an infection of some kind.

Mr. and Mrs. Eugene Sperle and children have gone to Long Beach, California on vacation trip. Sperle is agent at the Southern Pacific depot. Mr. Thompson of Salem is taking his place.

Mr. and Mrs. Lyle Thompson spent Sunday and Monday visiting in St. Helens.

A nickel isn't worth much anymore. It isn't even good to get the wrong number on a pay telephone.

the fruit of unceasing labor

BETWEEN 1911 and 1935, a brief span of twenty-five years, extraordinary progress was made in public health. According to figures released by the Metropolitan Life Insurance Company, the duration of human life during this period was extended by almost fourteen years. It is all the more remarkable in the light of the history of this period, which included the first World War, the worst epidemic in recent history, and America's most severe depression.

Many agencies have contributed to make America a more healthful place in which to live. Not the least of these are scientific medicine and pharmacy, which work unceasingly for better methods of prevention and treatment of disease.
