Mr. O'Leary, who is a brother of Mrs. Hoffman's operated the Mill City Variety here at one time.

Church President

WILLIAM R. KNOX

William R. Knox of Boston, Mass., was named president of The Mother church, The First Church of Christ, Scientist, in Boston, Massachusetts, at the annual meeting of the Mother Church attended by Christian Science students from many parts of the world. Mr. Knox's appointment was announced by The Christian Science Board of Directors. The term of office is for one year. He has been an authorized Christian Science practitioner in Boston—the world headquarters of the Christian Science movement—for almost 50 years.

Prior to devoting his full time to the practice of Christian Science healing, Mr. Knox was in the structural steel business. He first became interested in Christian Science through the healing of his mother.

Mr. Knox has served the denomination in a variety of posts. A former member of the Finance committee of The Mother Church, he is now active as a trustee of Church Realty Trust.

Every day you wait is costing you!

"COME ON IN AND TAKE A TEST DRIVE"

It's costing you money now!

Each day, the car you now drive drops in value. It will never be worth more toward a new Ford than it is this minute. And with Ford, you'll get the car that depreciates less . . . the car that holds onto its value longer.

It may cost you money later!

Unless you own a recent model Ford, or an expensive car, chances are that it will be made obsolete by a new model. But, in the low-price field, Ford is the only V-8 powered car . . . the only car with Ball-Joint Front Suspension . . . the only modern-styled car. These advanced features mean that the '54 Ford will still be an up-to-date car . . . with good trade-in value for the future.

And it's costing you a whale of a lot of pleasure!

For example, the easier action of Ford's brand new 130-h.p. Y-block V-8, gives you the kind of "Go" you've dreamed about at all driving speeds. Its deep-block, low-friction design is years ahead. No other low-priced car offers even an ordinary V-8!

And you get the easier handling and smoother riding of advanced Ball-Joint Front Suspension. Only Ford in its field has it. But you must take a Test Drive to really know the difference it makes. Call us—we'll gladly arrange one!
