2—THE MILL CITY ENTERPRISE THURSDAY, OCTOBER 21, 1954

The Weman's Council of the Christian church is holding a bazaar and food sale November 2 at the church basement. Lunches will also be served, starting at 11 a. m. adv.

Mr. and Mrs. Joe Lalack and son, Monte, left Saturday morning for Eastern Oregon where they went goose hunting. Joe got one goose and two ducks. Jack Scott was also hunting in that area and returned with two ducks.

Mrs. J. F. Potter returned Sunday evening from spending the weekend at her cottage at Road's End.

A newly organized group of Campfire Girls, under the leadership of Mrs. Carl Kelly and Mrs. Glen Hearing, met Thursday after school. They elected officers as follows: President, Karen Kelly; Vice President, Susan Jenkins; Secretary-treasurer, Nancy Baldwin; and Scribe Sharon Hearing. This group will help collect for the Community Chest tonight, Thursday.

Dr. and Mrs. David J. Ferguson, former residents of Mill City, but now of Pratum, near Salem, were dinner guests of Mr. and Mrs. D. B. Hill Sunday. Mrs. Ferguson is now employed on the night shift at the Fairview Home, south of Salem.

Mr. and Mrs. Cecil Hinkle and their son and daughter-in-law, Mr. and Mrs. Eddie Hinkle went to Elma, Washington, over the weekend. Eddie and his wife remained in Elma where he will be assistant pastor of the Assembly of God.

When President Eisenhower dedicated McNary dam he paid glowing tribute to "my good friend, Senator Guy Cordon." Can Oregon afford to lose this priceless presidential support by sending a man to the U. S. Senate who would knife the Eisenhower administration at every turn?

A VOTE FOR CORDON IS A VOTE FOR THE EISENHOWER PARTNERSHIP PLAN, WHICH MEANS PAYROLLS, PROGRESS & PROSPERITY FOR THE PEOPLE OF THE PACIFIC NORTHWEST!

Not so long ago Cordon's opponent—the New Deal candidate for the U. S. Senate—was all in favor of keeping Hell's Canyon an undeveloped wilderness. Now he wants a dam built entirely by Federal funds provided by the taxpayers of the entire United States—or nothing! If this man has his way, not one additional kilowatt shall we have from the Snake river unless the long-suffering U. S. taxpayer pungles up every penny!

Recently this same State Senator, who now asks the voters to send him to Washington, D. C., jumped up in a meeting at Madras and stated he voted against the proposed Pelton Dam, which would have provided power for Central Oregon and would have been built entirely by private capital without cost to the taxpayers. He was a little confused there because the Pelton Dam proposal never came before the State Senate!

The Cougar dam on the South Fork of the McKenzie river is opposed by the New Deal candidate even though the "partner" in this project is a publicly owned municipal district.

Just what kind of power does this man want? It can't be electric power as such because he opposes everything but all-out Federal ownership.

We'll tell you. He wants a CVA with a stranglehold on the economic development of the Pacific Northwest! And the ultimate dream of the "planners" is a Federal Power Authority to operate nation-wide and control every river resource in the entire U. S.

Fantastic? Not at all. It is all part of a Master Plan. Eisenhower and Cordon say "let's get on with the job of developing the Pacific Northwest. Let's put our natural resources to work creating payrolls and prosperity NOW!" We need all the power we can develop through every source—Federal, Private and Public!

Before you vote, take a good, long look at Cordon's record. In his 10 years in the U. S. Senate he has stepped up Federal funds for water development in this area from 4.7% to 27.5% of all the money appropriated for the entire United States.

Could any freshman Senator do as well—especially one opposed to everything the Eisenhower administration stands for?

Now what's all this guff about low cost Federal power? It's a fairy-tale pure and simple. In many classifications private power companies in Portland, Oregon sell power at lower cost than the TVA, which of course is subsidized by the taxpayers.

What about the Partnership Plan? Does the government pay for the non-income features?

Yes, it does. But then it always has. There's nothing new or different about that. Bonneville, McNary, The Dalles dam—all multi-purpose dams built entirely by Federal funds—charge off a percentage of construction and operating costs to such public benefits as flood control, navigation, conservation and so on. When the New Dealers tell you Bonneville, for instance, is "paying for itself" they are not telling you the whole truth about these "hidden" costs!

Remember, political hot air has never yet produced a kilowatt.

DON'T LET POWER POLITICS STAND IN THE WAY OF OREGON'S FUTURE!

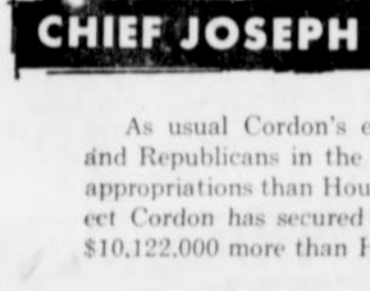

A vote for Cordon is a vote for the Eisenhower Partnership Plan of orderly and comprehensive development of our hydroelectric resources!

THE DALLES DAM

Cordon worked for authorization of The Dalles Dam and got it started during the period of the Democratic no-new-starts policy in 1950—and he has the documents to prove it. Cordon has secured total appropriations of \$92,676,000 which is \$34,426,000 MORE than would have been appropriated had House recommendations prevailed.

CHIEF JOSEPH DAM

As usual Cordon's effectiveness with both Democrats and Republicans in the U. S. Senate made possible larger appropriations than House recommendations. For this project Cordon has secured a total to date of \$104,766,000—\$10,122,000 more than House recommendations.

ALBENI FALLS DAM

Cordon introduced legislation to authorize this project and secured funds for its continued construction while the Truman no-new-starts policy was in effect after the House of Representatives had refused to appropriate any funds for that purpose.

COUGAR DAM

The 83rd Congress appropriated \$150,000 for planning the proposed partnership construction of this project on the South Fork of the McKenzie river. The Federal-Power-or-nothing crowd fought the project tooth and toenail even though the local partner was a municipal power district.

JOHN DAY DAM

The John Day Dam between The Dalles and McNary Dams will cost around \$320,000,000 to build. In the last Congress Cordon introduced a bill to authorize construction of this dam with the local partners, public and private, putting up more than half the cost of the dam in the form of a prepaid power contract (preference going to Oregon) and the federal government retaining 100% ownership of the entire project as a part of the multiple purpose development of the Columbia River Basin.

HELLS CANYON DAM

It is a matter of record that Cordon introduced the only Hells Canyon authorization attempt which ever came to a clear vote on the floor of the U. S. Senate. At that time Cordon's proposal was opposed by the public-power-or-nothing crowd in the U. S. Senate. There are other suitable dam sites on the Snake. Why hold out for one that the Congress has refused to authorize? Let's get something built and start the generators turning! Re-Elect Cordon!

On the left we list just a few of the power projects which Cordon has secured or has attempted to secure for the Pacific Northwest. We do not have space to begin to touch on the long list of irrigation projects and rivers and harbors improvement projects which Cordon has secured for Oregon including such projects as Haystack Reservoir in Central Oregon, the Talent project in Southern Oregon, the Coos County and Lincoln County Harbor Improvements and several Columbia river navigation improvements, and many, many others.

Re-Elect CORDON U.S. SENATOR

DON'T TRADE A RECORD FOR A PROMISE!

CORDON FOR U. S. SENATOR COMMITTEE, W. H. STEIWER, CHAIRMAN, IMPERIAL HOTEL, PORTLAND, ORE.
