County zoning protects the suburban areas without affecting lands within the limits of any incorporated city in Marion County.

To the Residents of Salem and Marion County:  
The need for intelligent planning and controlled expansion of our suburban areas is recognized by anyone, residing in Marion County, who takes the time to note of the problems incident to providing a sound community for a growing population.  
You are interested in smooth, easy flowing traffic. You are interested in protecting your homes from the deteriorating effect of encroachment of industry and commerce, and you want to provide industry and commerce a proper place in the community.  
There is no order in the development of a street pattern in the areas surrounding our cities and towns. There is no current plan for the orderly future growth of the county.  
The measure on the November ballot authorizes the County Court, based on public hearings and the recommendations of the County Planning Commission, to take progressive steps in controlling Marion County's future.  
You can serve the interest of all by voting X 9 yes in November.
