FORD sets 500-mile record at Indianapolis Speedway

Again proves nobody outperforms Ford

... dramatic demonstration of the kind of performance and roadability that makes all your driving more fun in a Ford!

A Ford V-8 hurtled across the brick and asphalt surface of tough and testing Indianapolis Speedway... whirling through the tight turns and flashing over the straight stretches... to set a mark that no stock car ever reached before!

Previous to Ford's record run, no other stock car had gone even one lap at Indianapolis at 100 m.p.h., but one of Ford's laps was timed at the electrifying speed of 113.7 m.p.h.! And Ford averaged over 107 m.p.h. for the full five hundred miles... close to the average set by the extremely costly, specially-built racer which won the Memorial Day "500"!

Ford fully realizes that the welter of claims and counter claims about "racing victories" (many of them completely contradictory) must be confusing and disillusioning to the public. Ford ran this race against time, over the true "Classic" distance and at the most famous track in America, in order to dispel this cloud of doubt and disbelief and prove that no one outperforms Ford!

Peter de Paolo, leader of the team of drivers that piloted the winning Ford, states flatly: "No other stock car could have equalled this performance!" And Pete de Paolo should know, for he was

the first driver to win the "500" Classic with a better than 100 m.p.h. average. And now he comes back with a group of drivers to establish a stock car record with the great '56 Ford!

Ford wrote this new mark large and bold in the record books. And the whole Ford did the trick. From the hood-full of throbbing horsepower to the road-hugging rear end. Ford demonstrated that it has what it takes to make your driving more enjoyable. Convince yourself that driving a Ford can be real fun. Test drive a '56 Ford. There's a set of keys waiting for you, so come in and see us soon.

Ford's record was timed and certified by the United States Auto Club

Here we live in the one spot in the world where the finest strawberry shortcake is possible. Our Marshall variety strawberries are the finest berries known for flavor and richness. Oregon's dairy products meet the high standards set by the nation's dairy industry. And of course, the flour used in your shortcake is the finest baking flour known... made of soft wheat grown in Oregon.

OREGON HAS ALL IT TAKES TO give you a summertime of fine strawberry shortcake eating. The wheat growers and strawberry growers have encouraged your grocer to make "specials" this week so you will be able to give your family all they want of this super dessert. Your baker too, will be featuring many delicious shortcake treats. Particularly handy are the shortcake dessert cups. However, if your idea for shortcake is crunchy, golden biscuits, here's an old-fashioned recipe which is a real snap... and made better because of Oregon wheat.

Shortcake Biscuits

Combine: 2 cups biscuit mix
1/4 cup melted butter
1/2 cup milk or light cream*
Mix lightly until blended. Turn out on lightly floured board or cloth and knead 4 or 5 times. Cut in large rounds. Bake at 450 degrees 15 minutes or until golden brown.

*To make a large shortcake to cut in slices or squares, add 1/2 cup milk or cream. Mix lightly and spread in greased baking pan. Bake at 425° about 20 minutes.

Satisfying in every way, eye-appealing and mouth-watering; there is nothing that tells you so well that summer is really here. Try Strawberry Shortcake for snacking, dessert-time, party-time or anytime... serve plenty.

REMEMBER: Summertime energy is in your shortcake, too. The choice Oregon wheat used in your shortcake helps give you the needed energy for the hot summer months, by contributing rich body building protein.
